Invoq | miniCombi

miniCombi

Just like its bigger Invoq siblings, miniCombi is engineered for consistency, efficiency, and ease of use – from fast-paced lunch service to overnight slow cooking. It's also a natural upgrade from our previous CombiSlim model, bringing new intelligence and performance into the same slim footprint.

Invoq | Essence

Essence

The Invoq Essence gives you all the essential functionality of previous Invoq models without the frills. Powered by the latest technology. Designed to evolve with your needs, it can be upgraded at any time with a range of tailored packages.

CIBO+

TURBOCHEF

SETTING THE BENCHMARK IN HIGH SPEED VENTLESS COOKING

This next-generation CiBO+ **carries the strength of the TurboChef brand** while keeping the same outstanding performance, reliability, and versatility chefs already depend on.

The first change you'll notice is the bigger 7" touchscreen, making operation faster, smoother, and more intuitive. The oven also features updated TurboChef branding and is now available exclusively in sleek black under code TCIBOPLUS/B.

Just as important, the core features remain unchanged and it is still proudly manufactured by Lincat, backed by a 2-year warranty (parts & labour).

Programmes	80 menu items
Temperature	Five temperatures groups
Cooking area size	340mm x 340mm
Heat Methods	Microwave, ContactBase, TurboAir
Base Heat	Direct cook on the toughened neo ceram ContactBase - no soggy, sweaty bottom
Colouration	ContactBase and TurboAir for even colouration
Touch Screen	7 inch (800 x 480 pixels)
Cooldown	Cooldown+, no ice required

WHAT COULD YOU DELIVER?

Bacon Roll

Cooks in 45 secs.

Paninis

Cooks in 45 secs.

Ribs & Fries

Cooks in 1 min. 20 secs.

Vegan Pizza

Cooks in 1 min. 35 secs.

2 YEAR

UK parts
and labour
warranty

Turbochef CIBO+ High Speed Oven

- Cooks in seconds, broadening your menu options to include denser items such as pies and lasagne
- Compact yet able to accommodate a 12" pizza
- Ventless and adaptable for use in virtually any setting

Lincat
 GREEN RANGE

OPUS 800

The Opus 800 series is built for power and performance.

High volume, high quality cooking is simple with the powerful Opus 800 series of 800mm deep oven ranges, boiling tops, fryers, grills, griddles, and bratt pans.

Designed to heat quickly, the Opus 800 series is made for non-stop establishments where kitchens are a constant hive of activity. The equipment can go on cooking delicious dishes all day long, from breakfast through to midnight.

The strong, durable series comes with both electric and gas models, and can be configured in a variety of ways, such as with pedestals and stands. Create a seamless, stylish look that's perfect for front of house and open kitchens.

Ideally suited for...

The heavy-duty Opus 800 series is perfect for the most demanding of kitchens. If your kitchen barely stops, then Opus 800 is the series for you.

The power of the Opus 800 series means it can deliver vast quantities of quality food. It won't let you down.

Large chain pubs and restaurants

Is your kitchen constantly under pressure to deliver delicious dishes at high volumes? If so, you'll find what you're looking for in the Opus 800 series.

Large hospitals

If you need to cook a vast quantity of meals for patients, the Opus 800 series has the capacity to deliver time after time.

Schools

Hundreds of children waiting for their lunchtime meal is no reason to stress when you've got the heavy-duty Opus 800 series ready to go in your kitchen.

Care homes

The Opus 800 series is designed for high output - perfect for when you've got to cook lots of meals at set times for residents.

Benefits at a glance

- 800mm deep
- Heavy duty
- For high output establishments cooking all day long
- Enhanced performance
- Strong and durable
- Increased capacity
- Gas and electric models
- Easy to clean

OPUS 800

All gas power ratings are nominal values.

Oil Management

All Opus 800 series gas and electric fryers are available as a base model with oil drainage through the body of the fryer. A gravity filtration accessory adds in-built filtration to the fryer, and the pumped filtration option provides the ultimate in convenience.

Gravity filtration accessory

The integral gravity filtration accessory converts the base model into a fryer with two-stage gravity filtration. This extends oil life, reduces disposal costs and provides a better tasting product for longer.

Pumped filtration option (/OP)

The integral pumped filtration option enables oil to be filtered and the fryer ready for use again in less than 5 minutes. Oil can be filtered during or after service, even whilst hot, maximising oil life. This eliminates the need to lift heavy containers, reducing contact with hot oil and the chances of hazardous spillages.

This option is supplied with a hose with lance for easy discharge of oil into a waste container.

Twin tank pumped filtration (/OP2)

The /OP2 version for twin tank fryers has two oil pumps and two buckets, which is designed to remove cross contamination of the oil from either side of the fryer.

This option is supplied with 2 hoses with lance for easy discharge of oil into a waste container.

Vortech High Efficiency Gas Fryer

- 97% energy efficiency rating verified in independent BSI tests delivers substantially lower running costs and higher output
- Typical payback within 23 months
- Two stage filtration removes contaminants and particles, extending oil life by up to 75% and so reducing oil costs
- Pumped oil return enables the oil to be filtered and the fryer ready for use again in less than five minutes - safe and convenient
- Oil can be filtered during or after service even whilst hot
- Convenient electronic ignition
- Supplied with a hose with lance for easy discharge of oil into a waste container

Inclusive Accessories

- Batter plate
- Full lid
- Baskets
- Stainless steel bucket

Electric Cook & Hold Salamander

The sophisticated Cook & Hold Salamander heats up in just eight seconds when the plate detection mechanism is activated by a plate or gastronorm pan. Once the food is cooked, the hold function will ensure food is kept warm but does not continue to cook until required for service. Once the plate is removed and the plate detection mechanism freed, the elements automatically switch off saving energy.

- Cook and hold function
- Fast heat up 'Hi-Light' elements – ready to cook in just eight seconds
- Self-balancing height adjustable grill hood for easy operation
- Three independently controlled heating zones for maximum flexibility
- Touchpad control with digital display of time and power settings
- 20 minute audible timer
- GN1/1 compatible
- Suitable for wall or bench mounting
- Suitable for single or three phase installation

2 YEAR UK parts and labour warranty | Export parts warranty on all Lincat products

Electric Clam Griddles

Opus 800 clam griddles cook food up to three times as quickly as a standard griddle. Double griddle plates heat both sides of the food simultaneously, delivering fast, even and repeatable results

- Precise thermostatic temperature control for consistent results and economical operation
- Independently controlled cooking zones for greater flexibility and economy during quieter periods

- Digital timer on each clam plate ensures repeatable results
- Ribbed plate option (/R), for attractive branding presentation marks

Inclusive Accessories

- Scraper
- PTFE non-stick sheets

IGNITE

Flame grilled taste, Electrified

*Compared to a Gas Chargrill

**Compared to a Direct Cook Chargrill

Ignite Electric Chargrill

- Real flame grilled technology for a charred taste
- Available in 600, 850 and 1100mm widths
- Removable, heavy-duty segmented cast iron grids deliver attractive branding marks
- Enameled base plate beneath grids for easy cleaning
- Vapourising technology turns fat and debris into ash for simple sweep-out cleaning
- Independently controlled cook zones to meet varying service demands

- Three-piece stainless steel splashback for easier cleaning
- Designed to complement the Opus 800 series
- Supplied with legs and locating cups for secure placement on a Chef Base
- Grid lifting tool and cleaning rake included as standard
- Optional single resting rack
- Optional garnish rail to hold GN 1/9 pots
- Optional stand available for flexible installation

Electric counter top equipment is supplied on height adjustable 55-70mm high legs.

Electric Chargrills

- Removable, durable, segmented cast iron grids impart attractive branding marks to food
- Independently controlled multiple heat zones (3 in OE8405, and 6 in OE8406) for maximum versatility • Controlled flaring gives that distinctive chargrilled flavour
- Hinging, interlocked elements and integral water bath makes cleaning easier
- Water bath provides humidity, keeping food succulent and reducing shrinkage

Electric Direct Cook Chargrills

- Create perfectly cooked, expertly branded burgers and steaks
- As food is cooked directly on the elements, there's no need for separate branding bars or grids
- Powerful elements are designed for rapid heat-up and a consistent temperature across the whole cooking surface
- Independently-controlled elements on the OE8414 mean one side can be switched off during quieter service periods to save energy

CONVECTOR

Convector Convection Oven: fast, efficient and effective

Able to roast, braise, bake and reheat, a Convector convection oven is a powerful addition to any commercial kitchen. Ideal for roasts, casseroles, bread, cakes and pastry, it can produce supremely even results even when fully loaded, thanks to its bi-directional, two-speed fan and optimised airflow.

With a range of sizes and power ratings to suit any application, Convector provides the capacity, control and power you need.

Ideally suited for...

A modern, smart design that looks great both front of house and in the kitchen, with a range of sizes and power ratings to suit any application. Places such as:

Bakeries

Whether you're starting from scratch, or from par-baked or pre-proved products, produce uniform results, even when full, so all of your bakes look the same every time.

Restaurants

Convector is a great choice for roasting and braising, with two speed fan perfect for switching to slow speed, to tenderise meat at the end of the cooking cycle.

Pubs

The Convector range is able to roast, braise, bake and reheat. Ideal for when you need consistently even results from a fully loaded oven.

Benefits at a glance

- Uniform results, every time, even when full
- Two-speed bi-directional fan
- Oven cavity optimised for airflow
- Flashing oven lamps when cook cycle ends
- Roast, braise, bake and reheat
- Manual+ and Touch models available
- Intuitive easy to use controls

Putting you in control for perfect results every time

Convect convection ovens put you in control. They give you the power to produce perfect results every time, with two control panel options, **Manual+** and **Touch**.

Manual+ provides the best of both worlds, the simplicity of mechanical temperature control and the cooking benefits afforded by two-speed electronic fan control.

Even in the busiest, noisiest kitchen the Convect's electronically controlled buzzer and flashing oven lamps will ensure that you hear and see that it has reached the end of its cooking cycle.

Touch control's 4.3" touchscreen menu is intuitive and provides the wider functionality and greater control that only a touchscreen can deliver. Cook programs are easy to set up and simple to use. Up to four stages can be created with an icon assigned to each of the 24 programs.

MANUAL+ CONTROL

Easy-to-use knob-driven control, mechanical temperature control, electronic fan control.

TEMPERATURE CONTROL

Mechanical thermostat 60°C to 260°C.

COUNT DOWN TIMER

120-minute timer with electronically-controlled buzzer. Oven lamps flash when the cook cycle has finished until the door is opened.

EVEN HEAT DISTRIBUTION

Electronically controlled two-speed, bi-directional fan.

TWO FAN SPEEDS

Standard for general use and slow for delicate items such as meringue, choux pastry, flans and quiches.

TOUCH CONTROL

Touchscreen control with easy-to-use icon-driven menu selections.

ColourCue
● ● ●

EASY-VIEW TRAFFIC LIGHT STATUS

Great for busy and noisy kitchens, ColourCue shows you the status of the oven at a glance: red – action is required such as unload; amber – the oven is pre heating or cooking; green – the oven is ready.

PHASED COOKING

Four-stage cooking for perfect results – set temperature, time, fan speed and humidity injection for each stage.

PROGRAM MODE

24 programs with up to four stages, which you can adjust individually. Icons and names can be assigned to each program to make it even easier to use, especially for untrained staff.

MANUAL MODE

Simple and easy to set the time and temperature required, then manually control humidity injection and fan speed during the cook cycle.

SHELF TIMER MODE

Four individual nine-hour timers allow you to track different products in program and manual mode.

TEMPERATURE CONTROL

Precise electronic temperature control from 30°C to 260°C.

COUNT DOWN TIMER

Nine-hour on-screen timer. An electronic buzzer sounds and the oven lamps flash when the cook cycle has finished until the door is opened or the alert is cancelled on the touchscreen.

HUMIDITY LEVELS

Five levels of humidity injection on C0100 and C0200 models

EVEN HEAT DISTRIBUTION

Electronically controlled two-speed, bi-directional fan.

TWO FAN SPEEDS

Standard for general use and slow for delicate items such as meringue or choux pastry.

USB

USB port for copying programs, ideal for operations with multiple sites. Future updates can also be easily managed.

The Range

We offer a range of convection ovens to suit any application and provide the capacity, control and power you need.

Water Treatment Units

It is recommended that a water treatment unit is installed with all Convector Touch models.

A water treatment unit will filter chemicals from the incoming water, including calcium helping to prevent the build up of limescale within the unit and ensuring steam is generated from purified water.

Technical Details and Accessories

Convect oven convection ovens have a modern, smart design that looks great both front of house and in the kitchen. However, it is the detail which makes all the difference, together with ease of use and the quality and consistency of the food it can produce.

1

OPTIMISED OVEN CAVITY

The optimised geometry of the oven cavity and side deflectors ensure that airflow is optimised across the shelves.

2

TWO SPEED, BI-DIRECTIONAL FAN SYSTEM

The powerful 190mm diameter bi-directional stainless-steel fan ensures that heat is distributed evenly throughout the cabinet, to deliver consistent results even with full loads. The standard fan speed is ideal for general use, the slow for delicate items such as meringue, choux pastry, flans and quiches.

3

DOUBLE GLASS DOOR

Double glass doors ensure that the outer door stays cool and is safe to touch. The inner glass is easily removable for cleaning, so you can always have a clear view of what's cooking.

4

OVEN CONSTRUCTION

100% stainless steel construction. The oven cabinets of Touch models, which are equipped with five levels of humidity injection, are constructed from 304-grade stainless steel for durability.

5

OVEN CABINET SEAL

The new plug-in continuous door seal is robust and seamless, which makes cleaning and replacement quick and easy without the need for tools.

6

RACKING SYSTEM

Oven racks are anti-tilt. Easy-to-release screws allow the side racks to be removed quickly for cleaning.

7

TRAY SPACING

Optimised tray spacing provides the flexibility required to use baking sheets or gastronorm dishes.

8

HALOGEN LAMPS

Offset lamp heights and energy efficient, brighter white light dual halogen lamps provide optimum illumination for both the cabinet and each individual shelf. Perfect for busy, noisy kitchens, the halogen lamps flash when the cook cycle has finished and continue to do so until the door is opened.

9

COMPACT FOOTPRINT

The Convect series has been designed to take up the minimum of counter or floor space, whilst still taking standard sizes of gastronorm dishes and euro baking sheets.

10

STACKING KIT

In kitchens where space is at a premium, two Convect ovens can be stacked, one on top of the other, using a stacking kit. This not only increases output potential but also provides the flexibility to cook products which require different temperatures, times or humidity.

11

STANDS

Stands are made from high-quality, stainless steel and provide robust, secure support for your Convect oven.

12

NON-SLIP FEET

Non-slip feet not only ensure that the oven stays in position and resists movement, but also reduce noise and vibration during operation.

Invoq

Invoq

Introducing an intuitive oven platform for baking, cooking and steaming that's as simple as it looks.

Designed by our sister company, the Scandinavian Combi Specialist Hounö, the new Lincat Invoq may look simple, but is in fact one of the most advanced and capable ovens ever made.

Created as a collaborative exercise with six global food service brands, including Lincat, means that Invoq became an oven that could be configured to suit any setting, restaurant or serving situation anywhere in the world.

The Invoq range

Invoq | Combi

Two steam technologies. Two distinct ovens. One trusted Invoq Combi range. Choose the steam solution that fits your kitchen, menu, and service demands.

Invoq Combi with CombiSteam

Instant steam injection for fast, efficient cooking. **CombiSteam** delivers speed, shorter wait times, and higher throughput – ideal for busy kitchens serving high volumes with consistent results.

Invoq Hybrid with HybridSteam

Injection and boiler-generated steam for maximum control.

HybridSteam creates dense steam saturation with precise moisture control, helping reduce shrinkage, improve yield, and deliver consistent results across a wide range of dishes.

Invoq | Essence

Exactly what you need. Nothing you don't.

Invoq Essence combines essential combi performance with simple, intuitive operation. Built on the Invoq platform, it pairs proven cooking technology with clean Scandinavian design.

Invoq | miniCombi

Precision cooking in tight spaces

The Invoq miniCombi delivers full combi performance in just 51.3 cm width. Designed for compact kitchens without compromise, it's available in 6- or 10-tray formats.

Invoq | Bake

Even bake. Every time.

Invoq Bake delivers consistent results on every shelf, anywhere in the oven. Flexible and versatile, it handles everything from breakfast pastries and snacks to sweet treats and takeaway meals. You can even bake different products together without flavour transfer.

Invoq

ClimateControl

Invoq includes key design elements to deliver optimised air distribution and airflow, improved humidity accuracy and faster moisture evacuation.

Fine-tuned humidity

On top of **CombiSteam** and **HybridSteam**, Invoq comes with two additional features for fine tuning humidity; **CombiSense*** and **CombiSpeed***.

Smartphone simple oven operation

Invoq is '**smartphone simple**', allowing extremely advanced, sophisticated, and sometimes unprecedented technology to be accessed, enjoyed and controlled with ease - by anyone.

The Invoq Combi, Hybrid and miniCombi feature **SmartChef***, while the Invoq Bake offers **SmartBaker**. These intelligent cooking functionalities guide you effortlessly to a great result.

With **MenuPlanner*** and **TablePlanner*** integrated into Invoq, users can effectively manage multiple dishes, tracking each item's progress on different racks and adjusting cooking times for synchronized finishing.

Quick Select Recipes* (**QSR**) empower all team members, regardless of experience level, to consistently produce high-quality baked goods. **QSR** streamlines operations, saving time and reducing the likelihood of errors.

* Not available on Essence models

Invoq

Increased capacity

Invoq Combi, Hybrid and Essence models, with an additional tray in 6-grid ovens, provide 17% more capacity, while Invoq Bake offers 20% more capacity with an extra tray.

Move towards a more Sustainable Kitchen

Without even making any changes to your usage pattern but simply by replacing your oven, Invoq can save you energy, lower your bills and reduce your carbon footprint.

A connected kitchen

Invoq ovens are supplied with a WIFI module as standard* and are designed to work with the Open Kitchen app. Remotely update software, upload and distribute new recipes, oversee your energy consumption or running costs, monitor your service schedule or access your HACCP data.

Stay spotless

CareCycle is the automatic cleaning system built into Invoq that saves both time and money.

CareCycle uses surprisingly little water, energy or chemicals and it ensures your oven is always spotlessly clean and ready for the next task.

Invoq Combi, Hybrid and Bake models have an **enhanced CareCycle** with two **Eco Modes**, a **Turbo Cleaning Cycle** and a **Cleaning Organiser** for smarter faster and more sustainable maintenance.

Learn more and discover the Invoq that is precisely right for you.

Invoq

Ideally suited for...

Invoq is a single solution tailored to meet the needs of different market segments. From restaurants to institutional kitchens and supermarkets. It has been designed from the point of view of chefs, kitchen designers and consultants. All of those who have a say in creating a commercial kitchen.

Quick Serve Restaurants

Use **SmartChef** to cook all food in the same way, regardless of which restaurant you visit, to experience the same quality and uniform results all the time.

Hospitals

HybridSteam, this high-density steam saturation, designed for intensive steaming production, offers full flexibility and endless possibilities.

Education

Roll-in combi ovens: The perfect solution for high volume cooking. Discover the roll-in combi oven: streamline high-volume cooking, reduce labour costs, and boost productivity.

Forecourts and Convenience Stores

By stacking two units, it becomes possible to simultaneously cook different batches of products, all while saving valuable floor space. The inclusion of hoods streamlines the installation process, making it both effortless and adaptable.

Benefits at a glance

- Invoq Combi, Hybrid and Essence with an extra tray in 6 grid ovens, delivers 17% more capacity
- Invoq miniCombi accommodates 6 or 10 1/1 GN in a 513mm footprint
- Invoq Bake with an extra tray, delivers 20% more capacity
- Less energy usage
- **SmartPhone** simple to use
- Automatic, intelligent cooking regardless of operator or skill level
- **ClimateControl***, perfectly controlled for optimum quality
- Innovative steam generation technologies
- Fine tune for humidity levels
- **CareCycle** automatic cleaning system
- All ovens are supplied with a WIFI module as standard
- Open Kitchen compatible*

Invoq

With Invoq, we have two innovative steam generation technologies, **CombiSteam** and **HybridSteam** to suit different settings.

CombiSteam.

A powerful injection of steam. Right now.

Instead of waiting for water to boil, **CombiSteam** injects water directly through the oven's heating elements. So, in seconds, with a minimum of energy, the entire Invoq oven becomes a steam chamber. No waiting. No water tank **CombiSteam** is featured on all Invoq Combi models.

CombiSteam is designed for:

Retail
QSR
Restaurants
Bakeries

HybridSteam.

Steam that can be both subtle and powerful.

In circumstances where either the food or the setting is less dictated by speed, HybridSteam is a unique method of creating humidity. On top of **CombiSteam**, a water reservoir - located within the oven casing - has been added, to provide the oven with an additional way to generate high-density steam saturation.

Depending on what you are cooking, intelligent sensors instruct the Invoq oven to deploy either injected steam or steam created from water in the boiler - or both, in tandem or sequence. This choice of interventions allows a spectrum of possibilities because steam can be added with finer and more comprehensive control.

HybridSteam is exclusively featured on the Invoq Hybrid models.

HybridSteam is designed for:

Canteens
Hospitals
Education
Central kitchens

Invoq

Invoq technology offers additional ways to fine-tune humidity.

On top of **CombiSteam** and **HybridSteam**, Invoq* comes with two additional features that allow you to produce predictably accurate results using the power of humidity.

CombiSense. Deliciousness inside and out.

CombiSense is an automatic humidity system that allows you to cook at high temperatures without drying out food or degrading its flavour or colour. It is ideal when you need to cook something that needs to be crisp on the outside and naturally moist on the inside. To produce the desired 'Maillard Reaction', Invoq has sensors that supervise and control the entire cooking cycle. They continuously adjust humidity levels on a percentage basis depending on the moisture released by the food, regardless of how full the oven is or whether you're cooking from cold or frozen.

Steam roasting
Grilling
Pan frying
Convenience
Bake-off

CombiSpeed. Cook faster and improve yield.

By injecting humidity, **CombiSpeed** both accelerates cooking times and locks in moisture and tenderness, so you get less shrinkage and more portions per serving. When used at low temperatures overnight, it keeps food succulent and juicy. Ten **CombiSpeed** settings allow you to choose the optimal level for your specific menu or workflow.

Braising
Roasting
Low-temperature cooking
Overnight cooking

Smarter kitchens. Smoother service. Complete control.

Discover how Invoq transforms every corner of your operation with intelligent tools designed to streamline workflows, enhance efficiency and keep your kitchen performing at its best.

SmartChef. Change from manual to automatic.

SmartChef* is an automatic feature for intelligent cooking. Select the type of food, desired cooking method and core temperature. Press start and the oven will guide you step by step through the process for a perfect result. Save your favourites and edit, if needed.

MenuPlanner. Make all users successful.

MenuPlanner* allows you to drag and drop your servings for an all-day service. You can easily keep track of all racks and adjust items to be finalised simultaneously, if preferred. You can even set up to three products on the same rack and the oven automatically compensates temperature changes with **CookTimeCorrection (CTC)**. Smooth and stressless operation.

TablePlanner. 3 racks in 1.

The **TablePlanner*** function allows you to combine up to three different products with one timer. Simply select your menu items; the oven will tell you when to load which item, and they will be ready for service at the same time.

ClimateControl. Be in charge of the environment in your oven.

ClimateControl* ensures optimised processes and shorter cooking times. Key design elements produce optimised air distribution and airflow, improved humidity accuracy and faster moisture evacuation. Everything is perfectly controlled for optimum quality.

CareCycle. Cleaning, your way. Effortless every day.

Keeping your oven spotless shouldn't slow down service.

Invoq features **CareCycle** – a fully automatic, tablet-based cleaning system designed for maximum efficiency with minimal effort. Choose from light, medium or intense cleaning programmes to match your day's demands. Tablets can be added safely even when the oven is warm, while an automatic rinse function helps ensure safe operation if a cycle is interrupted.

More time overnight? Choose Eco*

Schedule an overnight clean with the Eco setting to reduce water, power and chemical consumption while extending cleaning time for greater efficiency.

Need a faster turnaround*

Select the 15-minute Turbo cycle when time is tight and the next service is calling.

For the Invoq miniCombi, **CombiWash®** provides fully automatic, liquid-based cleaning with five selectable cycles – from quick rinses to intensive deep cleans. Separate detergent and rinse aid lines ensure effective hygiene, while an automatic safety flush helps prevent chemical residue if a cycle is interrupted. The result is effortless cleaning, reduced maintenance and reliable day-to-day performance.

* Excludes Essence models

Invoq

PassThrough. The fastest route.

In one side.
Out the other.

Invoq PassThrough* features an ingenious double door system. Food enters from the bakery side. Then, when it is cooked, it is removed from the service side.

Not only does this reduce the risk of cross contamination, it shortens the trips the server needs to make - they don't even need to enter the bakery.

Food is clearly visible to the customer and is illuminated by a powerful, low-energy LED light, which both adds a bit of theatre and encourages impulse buying.

Benefits at a glance

- Two-door oven for optimal workflow
- Avoid cross contamination - clear separation of food
- Ideal for display baking
- Attract customers and increase sales
- Improve logistics in your bakery and save time
- Space optimised system
- Improved safety

* Excludes Essence models

Invoq

StackUp saves floor space.

Double your capacity.

Stacking two ovens saves you valuable floor space. You can easily adjust the cooking capacity to the number of guests. And switch off the oven that you do not use in off-peak periods to avoid overcapacity and save money on energy.

Maximum flexibility.

By stacking two Invoq ovens, you get optimal baking flexibility. You can for instance prove bread in the bottom oven, while baking pastries in the top oven. You can choose different rack sizing for the two ovens for further flexibility.

Combi

- Combine two steam technologies

Bake

- Combine two steam/bake technologies

Invoq

Condensation Hood Overview

Air quality. Safely and efficiently.

By combining your Invoq oven with a condensation hood, efficiently extract and condense excess steam to drain. The result is less humidity, drier surfaces, and a safer and more comfortable working environment.

Concentrate your entire food production in just one square metre. And you have the freedom to place the oven anywhere you want.

- Ensuring efficient extraction and condensing of excess steam.
- Removing up to 93% of the humidity from the oven exhaust.
- The system is controlled by the oven.
- Condensed steam is discharged through the oven's drain system.
- No external connection required.

Invoq

Invoq Hoodini Overview

Liberate your kitchen from traditional hood systems.

Get grease, vapours and contaminated air out of your kitchen without complex and pricey roof venting. Controlled by the oven, Hoodini is retrofittable and designed for seamless integration*.

Why Hoodini* over a traditional hood system?

- No top clearance and external air extraction ducts required
- Eliminate the need for time consuming and labour intensive filter cleaning
- Say goodbye to ongoing expenses for filter replacements
- No service charges – reduce maintenance costs and eliminate service charges

This is how the Invoq Hoodini works:

1. Main Fan Activation

The main fan starts, efficiently pulling cooking vapours out of the oven cavity.

3. Condensation process

Vapours pass over the condenser, where cooling results in the formation of water particles that drip towards the drain.

2. Particle separation

Heavy particles drop towards the drain, while lighter particles are directed towards the condenser.

4. Catalytic converter action

Remaining vapours pass through the platinum and palladium-coated catalytic converter, reducing gases to harmless carbon dioxide and water. 5. Recirculation: Harmless gases are returned to the oven cavity to restart the process, ensuring a continuous and efficient cooking experience.

*Hoodini requires a 230-volt single-phase plug within a 3-meter radius. *Retrofittable on Invoq only, CombiSlim Hoodini is factory fit only.*

** Excludes Essence models*

Invoq

Drain Lift System

Unleash installation freedom.

Say goodbye to drainage issues and costly external pumps – our all-in-one solution is here to transform your culinary experience.

Drain lift system on a Stackit oven

Drain lift system on a standard oven

Drain box and pump assembly

The drain lift system for Invoq ovens is a ready-to install, external, automatic drainage system with an integrated pump, intended to lift wastewater out into a wall mounted drain.

This system is perfect for various kitchen setups with Invoq ovens; stand alone or Stackit solution. Frequently seen in basement kitchens and other locations with wall-mounted drains, its adaptability makes it an ideal choice for a wide range of culinary environments. The tundish allows for a wall installation of a height up to 350 mm.

This is a factory fitted option on 20 grid and Bake 16 ovens.

Invoq

Invoq helps you move towards a more sustainable kitchen.

Convection 

19% less energy
used per
running hour

Technology behind the scenes:

- Triple layer glass door
- Improved airflow contributing to the Maillard reaction
- Improved air intake - three times faster dehumidification
- Energy-efficient insulation

Steam 

70% less energy
used per
running hour

Technology behind the scenes:

- Improved steam saturation based on lambda sensor
- Improved boiler performance (%)
- **HybridSteam** implementation
- Closed drain system

Cleaning 

70.7% less costs
27% less water
63% less time

Technology behind the scenes:

- Recirculating cleaning system
- Less and greener chemicals
- Cleaning programs to match your needs

Your savings 

Cost savings
of £1,401/ €1,612
per year

User scenario based on following operation:

- Eight hours a day (six hours convection, two hours steaming, one medium cleaning)
- Five days a week
- 48 weeks a year

Based on a kWh price of € 0.46 and a water price of € 1.45 per m3. Comparison: Invoq Hybrid 10-1/1 GN up against predecessor model.

Invoq | Essence

Invoq Essence

Performance you can rely on. Simply the essentials.

Invoq Essence delivers the core benefits of Invoq combi cooking in a simple, intuitive package. Designed for reliability and everyday efficiency, it combines proven cooking performance with streamlined operation, clean Scandinavian design, and an easy-to-use workflow that keeps training simple and service moving smoothly.

Available in three electric models – from compact 6 x 1/1 GN to high-capacity 20 x 1/1 GN with roll-in trolley convenience – Invoq Essence makes it easy to match capacity to your operation. Flexible installation options, including stackable configurations and condensation hoods, help it fit seamlessly into almost any kitchen.

Minimise cleaning. Maximise uptime.

Automated cleaning programmes make daily maintenance fast and straightforward, helping reduce labour time and keep the oven ready for service. Simple guided controls ensure cleaning is easy for every operator, while efficient programmes help minimise downtime and maximise productivity.

Invoq Essence

Everything you need. Nothing you don't.

It is recommended that a water treatment unit is installed with all Invoq Ovens. Any water related issues which arise with Invoq Ovens not fitted with a suitable water treatment unit will not be covered under warranty.

**** All ovens are supplied with a WIFI module as standard. † Excludes Essence models.**
Price includes onboarding via 'Power House Dynamics' and 12 months of usage. 6 month free trial available with limited functionality in Power House Dynamics.

Invoq | miniCombi

Invoq miniCombi

Big performance. Small footprint.

Invoq miniCombi delivers full combi oven performance in a compact 51.3 cm footprint, making it ideal for kitchens where space is limited but expectations are high. Designed for cafés, QSRs, convenience stores, and compact commercial kitchens, it combines intelligent cooking technology, intuitive controls, and reliable results in a slim, space-saving design.

Key benefits at a glance

- Full combi oven performance in just 51.3 cm width
- Available in 6 x 1/1 GN and 10 x 1/1 GN models
- Injection steam technology with precise humidity control – further information on page L37
- Intuitive **SmartTouch**® controls with smartphone-style navigation – further information on page L39
- **RackTimer**®, **MenuPlanner**®, and **SmartChef**® for simplified workflows – further information on page L39
- Automated **CombiWash**® cleaning system – further information on page L39
- WiFi and Open Kitchen cloud connectivity for remote monitoring and HACCP documentation

Stackit configurations can double capacity vertically, while condensation hoods and Hoodini® ventless solutions give you the flexibility to place the oven where it's needed, regardless of ventilation requirements.

Invoq miniCombi

Making service simple.

Invoq | miniCombi

miniCombi

- Measuring just 513mm wide and accommodating a full size 1/1 gastronorm
- miniCombi ovens are small but effective, providing the same features as a large combi oven giving you maximum flexibility
- All ovens are 50 herts, 3 Phase

MODEL	LQMC6	LQMC10

miniCombi with Hoodini

- See page L42 for more information on **Hoodini**
- Invest in a combi oven without the cost and installation of a commercial hood system
- Utilise non-traditional spaces
- Ideal for where venting to the atmosphere is impractical or not possible
- Hoodini uses less energy over traditional hood system, a great way to work towards being carbon neutral

Invoq | Bake

Invoq | Bake

Invoq Bake allows you to widen the selection of products you can bake. From breakfast pastries to lunchtime snacks, sweet treats to take-away ready meals - and everything in between

Instead of revolving the racks, we circulate the air.

With Invoq Bake, the hot air moves, not what you're baking.

A highly sophisticated, sensor controlled, smart fan distributes and circulates the air. It creates trajectories that envelop every item in the oven consistently, no matter what rack it is sitting on. Top to bottom, side to side, reversing automatically.

Convection and steam are optimally balanced.

Moist on the inside. –
The oven, not just the pastry.

Controlling the humidity level while baking can have a dramatic impact on results, providing that you can control it with speed and accuracy.

Invoq Bake gives you this degree of fine intervention by allowing you to introduce moisture directly into the oven cavity, quickly, on the fly. It also means you can confidently bake several different products at the same time.

An advanced steam production system injects moisture directly into the oven's heating elements, with immediate effect. Steam is produced without waiting for any water to boil and with minimum energy demand.

The steam injection system is backed up by an active air inlet, promoting crispness and crunchiness.

Benefits From Adding Humidity

- Crispy and colourful crust.
- Increased product volume.
- Maintained moisture level inside the product for a longer shelf life.
- Protecting the surface of delicate products like croissants.
- Controlled proving environment.
- One piece of equipment for desserts, cakes and breads.

A range of fan speeds to suit a range of baked items.

Invoq Bake's fan is so sensitive and controllable, it instinctively knows how to treat a meringue differently from a baguette.

CombiSense

The automatic humidity system offers you the possibility to bake your product with a shiny, crisp and crunchy finish while maintaining a moist centre.

No cross-contamination of flavours.

You can actually bake muffins and garlic bread at the same time without flavour transferring from one product to the other.

Invoq | Bake

An oven controlled by a tablet.

SmartBaker. Change from manual to automatic.

SmartBaker is an automatic feature for intelligent baking. See, follow and learn from the oven to develop your own recipes. Select the type of food, desired cooking method and core temperature. Press start and the oven will guide you step by step through the process for a perfect result. Save your favourites and edit, if needed.

QSR. Make no mistake, anyone can stick to this recipe.

QSR - Quick Select Recipes - enable any member of your team, no matter how experienced, to bake at a consistently high quality. QSR saves time and makes mistakes less likely.

ClimateControl. Be in charge of the environment in your oven.

ClimateControl ensures optimised processes and shorter cooking times. Key design elements produce optimised air distribution and airflow, improved humidity accuracy and faster moisture evacuation. Everything is perfectly controlled for optimum quality.

CareCycle. Customise the way you keep spotless.

Although a clean oven is a necessity, cleaning can interrupt service or make your workflow more complex. **CareCycle** is a phosphate free tablet-based way to clean, with seven programs ranging from Eco to Turbo. It produces excellent results with surprisingly little water or chemicals, and you can program **CareCycle** to get to work at your convenience.

Invoq | Bake

Sustainability.

Convection 

19% less energy
used per
running hour

Technology behind the scenes:

- Triple layer glass door
- Improved airflow contributing to the Maillard reaction
- Improved air intake - three times faster dehumidification
- Energy-efficient insulation

Cleaning 

70.7% less costs
27% less water
63% less time

Technology behind the scenes:

- Recirculating cleaning system
- Less and greener chemicals
- Cleaning programs to match your needs

Your savings 

Cost savings
of £335/ € 385
per year

Technology behind the scenes:

- Ten hours a day and one medium cleaning
- Seven days a week
- 50 weeks a year

Based on a kWh price of € 0.46 and a water price of € 1.45 per m3. Comparison: Invoq Bake 9 - 400x600 EN up against predecessor model.

It is recommended that a water treatment unit is installed with all Invoq Ovens. Any water related issues which arise with Invoq Ovens not fitted with a suitable water treatment unit will not be covered under warranty.

****All ovens are supplied with a WIFI module as standard. Price includes onboarding via 'Power House Dynamics' and 12 months of usage. 6 month free trial available with limited functionality in Power House Dynamics.**

Invoq

MultiRack for multiuse.

Combine your 400 x 600mm baking sheets with your 1/1 gastronorm trays giving you a wide variety of accessories to use at the same.

MultiRack for 6 grid Invoq Combi and Hybrid and Invoq Bake 6 gives 5 trays with 100mm rack distance. MultiRack for 10 grid Invoq Combi and Hybrid and Invoq Bake 9 gives you 8 trays with a distance of 110mm.

Achieve full flexibility by expanding your accessories

The patented aluminium alloy of the 1/1 GN Imperial® accessories provides an optimal ability to absorb, store and release heat. The accessories enable perfect cooking and baking results making sure that there is no limit to what you can cook in your Invoq oven.

In busy kitchens where speed is crucial, caterers need quick and easy access to food at the point of cooking, Blu° refrigerated chef bases provide the ideal solution.

Our Blu° chef bases, brought to you in conjunction with our market leading sister company Desmon, Blu° bases allow easy access to stored, chilled food at the point of cooking.

Designed to accommodate heavy-duty Opus 800 series equipment such as chargrills, griddles and induction hobs, the unit has self-closing, heavy-duty drawers capable of holding 1/1 GN 100mm-deep containers, providing convenient bulk storage for meat and fish.

The Blu° chef bases are powered by a three-pin plug, therefore requiring no installation. For ease of cleaning, the units have removable drawers, rounded interior corners and removable rubber magnetic door gaskets. They are supplied on castors, making it simple to pull the unit out for a deep clean. As with all Lincat products, the Blu° chef bases come with a two-year warranty.

Ideally suited for...

Blu° chef bases are perfect for the most demanding of kitchens allowing easy access to stored, chilled food at the point of cooking.

Large chain pubs and restaurants

Is your kitchen constantly under pressure to deliver delicious dishes at high volumes? If so, you'll find Blu° chef bases speed up operations.

High Volume Kitchens

If you need to cook a vast quantity of meals, Blu° chef bases will improve the efficiency in your kitchen.

Benefits at a glance

- Designed to accommodate heavy equipment, including Opus 800 Series chargrills, griddles and hobs
- Drawers hold 1/1 GN 100mm deep containers
- Allows bulk storage and easy access to food at point of cooking
- Ideal for meat and fish
- Adjustable thermostat -2° to + 8°C
- Self-closing heavy duty drawers
- Supplied on castors as standard

Chef Bases

- Three widths available – 800mm, 900mm and 1200mm
- Designed to accommodate heavy equipment including Opus 800 Series chargrills, griddles and hobs
- Drawers hold 1/1 GN 100mm deep container/s
- Allows bulk storage and easy access to food at point of cooking
- Ideal for meat and fish
- Adjustable digital thermostat -2°C to +8°C
- Self-closing heavy duty drawers
- Energy grade D
- Supplied on castors as standard

Phoenix offers performance and power without the frills, at a cost-effective price point

Robust and durable, the medium duty Phoenix series includes both gas and electric models, and has been designed to cope with the day-to-day demands of the busiest of kitchens.

The series is ideal for the value-conscious buyer who doesn't want to sacrifice quality and performance.

Ideally suited for...

The Phoenix series is ideal for anyone who needs power which packs a punch, while keeping costs to a minimum. They include:

Care homes

The Phoenix series comes with the power and capacity to deliver quality meals at set times in a care home environment.

Schools

Looking for a cost-effective solution for delivering high-volume school meals? The Phoenix series provides just that, with the perfect combination of power and performance.

The Phoenix series provides power and performance without having to break the bank.

Benefits at a glance

- Medium duty
- Cost-effective
- Robust
- Performance guaranteed
- Powerful
- Gas and electric models
- Easy to clean

Smaller pubs and restaurants

Robust enough to cope in busy kitchens, the Phoenix series will keep up with the demands that you place on it.

Bratt Pans

Turn up the volume! Solve bulk cooking needs even at high temperatures. Perfect for bulk cooking in a variety of methods - allows users to braise, shallow fry or boil a variety of food products in large quantities.

Gas Bratt Pan

- Large 80 litre capacity
- Temperature control flexible from 45°C to 295°C - maximum flexibility to meet different cooking needs
- Handwheel controlled manual tilting for a smooth tilt
- Large pouring spout for easy emptying of the pan, reducing mess
- Incoloy alloy corrosion resistant elements
- AISI 304 grade stainless steel for uniform heat distribution, perfect for high temperature cooking
- Robust 12mm thick base
- Easy clean stainless steel design
- Also supplied with LPG jets for conversion on site

SILVERLINK 600

Configure your cooking space with the custom-build Silverlink 600 range

The Silverlink 600 series of 600mm deep modular cooking equipment is designed for flexibility, enabling you to configure your cooking space just the way you like it.

The range includes countertop, base units, and freestanding versions of a wide variety of kitchen equipment, including oven ranges, boiling tops, ovens, pasta boilers, bain maries, fryers, chip scuttles, grills and griddles

The medium-duty Silverlink 600 range is perfect for shift service output, such as those establishments serving lunch and dinner.

Ideally suited for...

The Silverlink 600 series is suitable for a variety of locations where flexibility is appreciated, including the following:

Care homes

The medium-duty series is aimed at locations with shift service output. This makes it perfect for care homes with set meal patterns.

Larger café bars

With every piece of equipment you could hope to find in a kitchen, your café bar will be able to provide a range of delicious dishes.

Village halls and community centres

Make the most of the modular flexibility to configure your food preparation area your way.

Small to medium pubs and restaurants

Ideal for pubs and restaurants with shift service operations looking for flexible solutions in their kitchen.

Modular cooking equipment designed for flexibility, enabling you to configure your cooking space just the way you like it.

Benefits at a glance

- 600mm deep
- Medium duty
- Modular flexibility
- Free standing and counter top units
- Ideal for establishments serving on a shift basis (lunch and dinner)
- Gas and electric models
- Easy to clean

SILVERLINK 600

All gas power ratings are nominal values. All Silverlink 600 counter top units when mounted on optional floor stands or pedestals provide a uniform nominal hob height of 900mm.

Gas Oven Ranges

- Fully pressed and sealed hob tops for easy cleaning
- Robust, easy-clean vitreous enamelled cast iron pan supports
- Low level flue maximises working area and enables you to use large stock pots
- Large capacity oven with a stainless steel interior for easy cleaning
- Oven and hob burners with automatic flame failure device for added safety
- Castors at rear to enable unit to be pulled out for deeper cleans

Induction Hobs

- High power - almost twice the cooking power of a similarly rated gas hob
- Boost function on multi-zone models delivers power when it's most needed
- 6mm thick high impact resistant glass ceramic surface will withstand hard knocks and is easy to clean
- Suites perfectly with other Silverlink 600 products to create a professional cookline
- Easy to use rotary controls complete with LED display of power level
- Pan detection function cuts power when no pan is present, preventing harm to users and utensils, while saving energy
- Automatic heat up function switches to a preset power level after full power heat up
- Easy to change filter, built into the base of the unit
- Powerful internal cooling fan and overheat protection for long service life
- These units are not suitable for mounting on Silverlink 600 heated pedestals
- Compatible with V6 ovens

LYNX400

Produce perfect plates of food in no time with the Lynx 400 plug in and play series.

The electric Lynx 400 series is designed to be portable. The units are compact, but what they lack in size they more than make up for in quality.

There's no complicated set up process with the Lynx 400 series. They're ready to go immediately, which means you only have to think about the range of delicious dishes you're going to create.

Made in the UK, the series is sturdy and built to last. Whatever the product - fryers, griddles, pasta boilers or pizza ovens - you can rely on them not to let you down.

Ideally suited for...

The products within the Lynx 400 series are highly portable and compact, making them perfect for cafés and pubs as well as event catering.

The Lynx 400 range is full of compact, quality products that are designed to plug in and play.

Cafés

The series is great if you're looking to offer customers light meals and snacks, such as toasted sandwiches and fries.

Pubs

Space saving, the range is perfect for crispy chips, delicious pasta and perfect pizzas, among other great dishes.

Events

If you cater at events, you'll love the portability of the Lynx 400 series. What's more, the products are designed to plug in and play, so there's no set up times to worry about.

Benefits at a glance

- Typically 400mm deep
- Plug in and play
- Portable
- Robust
- Quality - made in the UK
- Easy to clean

LYNX⁴⁰⁰

Convection Ovens

- Compact footprint, starting at 40.5cm wide there is a convection oven for even the smallest of outlets
- Direct placement of gastronorms and trays on racks maximises oven space
- LCOS and LCOT supplied with 2 shelves, LCOXL supplied with 3 shelves
- Powerful fan assisted cooking for uniform cooking and consistent results
- Powerful 2.5kW oven for rapid heat up
- Simple dial controls with 60 minute timer
- Side opening door with double glass viewing panel delivering energy efficiency and safe cool touch door
- 13 Amp plug for easy plug and play operation
- User replaceable inner door glass, light bulb and door seal so maintenance is fuss free
- 2 years on site parts and labour warranty, in the event of an issue we will send an engineer to site, minimising downtime and inconvenience for the end user

**LCO Slim (LCOS)**

Accommodates 4 x 1/2 gastronorms

- Heat up time 0 - 200°C - 7 mins, 50 secs
- Output from 24 frozen croissants per hour
- Output from 30 demi baguettes per hour

**LCO Tall (LCOT)**

Accommodates 4 x 2/3 gastronorms

- Heat up time 0 - 200°C - 10 mins, 40 secs
- Output from 32 frozen croissants per hour
- Output from 48 demi baguettes per hour

**LCO XL (LCOXL)**

Accommodates 4 x 1/1 gastronorms

- Heat up time 0 - 200°C - 15 min, 45 secs
- Output from 48 frozen croissants per hour
- Output from 60 demi baguettes per hour

Lincat Specialist

Whatever your kitchen needs, you'll find a solution with the Lincat range of specialist, built-for-purpose products.

The Lincat range of products are built for specific applications, so if you have a particular need for your kitchen, you're sure to find the right product for you.

The range includes pizza ovens, convection ovens, toasters and induction hobs, among others. Each product within the range is made with care, delivering great results time after time.

Ideally suited for...

Given the variety of products within the Lincat range, there are a range of establishments that could benefit from their specific functions, including:

Cafés

Are you looking for products to produce sumptuous snacks for your café? The Lincat range includes pizza ovens to recreate the authentic Italian taste.

Bakery

Looking to produce delicious evenly baked breads and cakes. You'll find the the perfect solution with the Lincat convection oven range.

Hotels

The Lincat range offers conveyor toasters capable of making over 300 slices of perfectly crunchy toast, through to food warming drawers to keep your dishes at the optimum temperature.

Events

The Lincat Table Top Induction Hobs feature a lightweight and portable plug in design to offer the ultimate versatility.

Looking for a specific solution for your kitchen? You're sure to find it with the Lincat range of built-for-purpose products.

Benefits at a glance

- Specific functionality
- Designed-for-purpose
- Front and back of house applications

Convection Ovens

- Efficient air circulation, with twin fans for fast and even cooking
- Robust stainless steel construction
- Cook and hold facility
- Accepts 1/1 GN containers for convenient operation
- Water injection facility gives a professional finish to breads and pastries

- Double-glazed door for energy efficiency
- Stackable to make best use of limited space
- Higher powered model ECO9 has larger oven and offers faster heat up and recovery times

PANTHER

The flexible Panther Hot Cupboards and Holding Bins keep food in perfect condition.

The Panther range of robust Hot Cupboards includes both static and mobile models, meaning that whether you're looking to transport food, form a servery, or a kitchen pass, you'll find the perfect solution for your needs.

The hygienic cupboards are built for ultimate flexibility. They come in different length options and you can also configure the unit to your exact requirements — by selecting a plain top or bain's marie top as well as adding items such as tray slides, gantries and sneeze screens.

Ideally suited for...

The different sizes available and the ability to modify the hot cupboards means that you're sure to find the right one for your establishment. They might include:

Hold and transport your meals in the perfect condition with Panther. Perfect food stays perfect.

Care homes

The smaller 670 model (670mm wide) is made to fit through narrow doorways, making this model perfect for care homes where plated meals are transported from the kitchen to the residents.

Large restaurants

The larger 800 model (800mm wide) has the capacity to hold and transport high volumes of food. It's perfect for carveries.

Schools

The larger 800 model (800mm wide) is ideal for moving prepared dishes to different locations in the perfect condition. Great for school lunchtimes.

Small pubs and restaurants

The static light duty hot cupboard is designed for establishments where space is at a premium or where budgets are tight.

Benefits at a glance

Static or mobile hot cupboards

- Configurable
- Bains marie or plain top models
- 670mm and 800mm deep
- Fan assisted

Static light duty hot cupboards and Hot holding bins - compact and cost effective

- Robust
- Hygienic

PANTHER

Hot Hold Bins

Keep food warm and in perfect serving condition whilst reducing queues and waste.

- Reduces waste – safely hold food for over 1 hour without shrinkage, or loss of flavour or texture
- *HHB12100 – Flexible – use with 2 x 1/1GN, 4 x 2/4GN or a combination of these! Additional dividers required for 2/4GN
- *HHB13100 – Flexible – use with 3 x 1/1GN, 6 x 2/4GN or a combination of these! Additional dividers required for 2/4GN
- Intuitive digital controls
- Adjustable temperature for each bin
- Independently controlled upper and lower bins, switch off one bin during quieter periods to save energy
- Easy-access open design speeds up service

Quality hot water is on tap 24/7 with the FilterFlow range of water boilers.

Easy to use and cheap to run, the reliable FilterFlow range of water boilers offer high output from a minimal footprint.

Whatever your output requirements, you'll find a boiler to cater to your needs. FilterFlow boilers are connected to the main water supply, meaning there's always a steady supply of piping hot water.

Do your employees have to wait in a queue to make a cup of tea at break times? Do you sometimes struggle to deal with a rush of customers asking for teas and coffees all at once? With FilterFlow, these scenarios cease to be a problem.

Ideally suited for...

FilterFlow boilers can provide solutions for a variety of applications where a steady flow of high quality hot water is a must. Places such as:

Offices and staff rooms

Break times can be busy times in offices. Especially when everyone wants a cup of tea at the same time. The FilterFlow water boilers efficiently provide hot water on tap, making the whole process much quicker.

Cafés

Do you often get that moment when there's a rush of customers descending on your café at the same time, all in the mood for a relaxing cup of tea or coffee? Serve them quickly and efficiently with the FilterFlow water boiler range.

A reliable supply of quality filtered hot water whenever you need it. There's no need to wait with the FilterFlow range.

Benefits at a glance

- High quality boiling water 24/7
- High output from narrow footprint
- Easy to use
- Cheap to run
- Connected to the mains water supply

Find your new water boiler

With our chart, it's easy to identify the right new boiler to match your needs.

Wall Mounted, Automatic Water Boilers with Tap Dispense

Introducing the WMB5F (5 litre) and the WMB7F (7 litre) wall mounted automatic water boilers based on our popular 3 litre WMB3F. With a sleek glass finish available in black or white, these boilers are ideal for front of house, office kitchens or staff rooms.

- Exceptionally compact and perfect for locations with limited space
- High quality boiling water on tap 24 hours a day
- Built-in water filtration system improves water quality and reduces scale build-up
- Dispense temperature can be reduced to 70°C perfect for delicate specialty teas
- High volume, easy change FilterFlow cartridge
- Extra room underneath for larger cups, teapots, jugs and airpots to be filled
- Advanced diagnostics with LCD panel showing boiler status
- Cool-to-touch 6mm thick toughened glass fascia to withstand hard knocks
- Require hard wiring to the mains

SEAL

Tempt customers to spend more with Seal displays and merchandisers.

You can rely on the Seal displays, merchandisers, cabinets and showcases to hold food in optimum conditions – at all times.

The sleek and elegant designs entice customers to spend more as you can tempt them with your already prepared meals and snacks.

Whether you're looking for a front of house or back of house solution, and whatever the type of food, from hot meats, pizzas and pies, to cold sandwiches and yoghurts, you'll find the perfect model for you in the Seal range.

Ideally suited for...

The Seal range is ideal for anyone who needs a method for holding food at the right temperature while tempting customers to spend more at the same time.

School and college canteens

Keep student meals and snacks in the optimum condition and encourage additional sales.

Hotels

Perfect for showcasing and holding foods during breakfast as well as for other meals.

Sporting venues

Entice customers before, during and after the game with clear and well-designed displays of appetizing food.

Cafés

Keep baked goods and other foods in the perfect condition while tempting your customers to make additional purchases at the checkout.

The Seal range combines the functional - keeping food at the optimum temperature - with an attractive design that can entice customers to make additional purchases.

Benefits at a glance

- Showcase your food and increase sales
- Ambient, refrigerated and heated merchandisers and displays
- Keep food in optimum condition
- Front and back service option
- Reliable
- Sturdy
- Hygienic

Touch

For those who run the busiest professional kitchens and refuse to compromise on quality.

Professional Free Standing and Drop in Fryers with Automation

Ideally suited for:

- Multi-site operations
- Fast Food/QSR
- Education
- Healthcare
- Retail
- Cloud Kitchens

Why choose Touch?

- All the great features of Precision plus
- QPad intuitive, easy to use touchscreen

- Organise your screen to suit your operation
- 24 user set menu icons, regardless of the operator, the fryer will deliver precisely the same results every time

- Make any change with just a single touch
- Eco mode for energy savings and extended oil life

- Energy, Oil and Data Management giving you control and helping you to make informed commercial decisions
- FriFri Oil Assistant, easily monitor the condition of oil
- Fryer Chief, protection against flare-ups and fires

Find out more on page

F10

Precision

For the chef who wants superb temperature control for consistently excellent results.

Professional Free Standing and Drop in Fryers

Ideally suited for:

- Chains
- Independents
- Gastronomy
- Education

Why choose Precision?

- Maintains oil to within $\pm 1^\circ\text{C}$ of your required setting
- Timer with countdown display and buzzer
- Adaptive Cooking - Are there more fries than last time?

Automatically adjusts cooking times to suit your batch size

- Integral gravity filtration
- Optional LiftFri[®] automatic basket lifting system
- Optional xFri[®] pumped oil filtration

Find out more on page

F21

Super Easy

Outstanding value with no compromise in quality or performance.

Mid-Range Free Standing and Drop in Fryers

Ideally suited for:

- Restaurants
- Hotels
- Education
- Health

Why choose Super Easy?

- Corrosion-resistant 304 grade stainless steel pressed tanks offer superior strength and durability
- A fully rounded profile with radiused corners and a robust hinged element makes cleaning easier and quicker.

- Low watts density element with a large surface area in contact with the oil

- Integral gravity filtration
- Optional xFri[®] integrated oil pump and filtration system

Find out more on page

F31

profi+

Professional performance from a compact, sturdy counter top fryer.

Professional Counter Top Fryers

Ideally suited for:

- Fine cuisine
- Restaurants

Why choose Profi+?

- A powerful counter top fryer capable of producing up to 25kg of chips per hour
- Highly responsive digital electronic control able to maintain oil to $\pm 1^\circ\text{C}$

- Rear-mounted slot-in lid that also acts as a splashback and basket support

- One piece pressed stainless steel tank with rounded corners for increased durability and reduced cleaning times

All prices are exclusive of VAT.

UK
Goods are normally delivered free of charge to either the dealers' address or direct within 3 working days. If overnight and/or premium services are required charges will apply.

Export
Goods are priced ex works, export crates POA.
All FriFri is built to order and is non-cancellable.

frita+

Affordable, durable and efficient – it won't let you down.

Mid-range Counter Top Fryers

Ideally suited for:

- Cafes
- Pubs
- Restaurants

Why choose Frita+?

- A durable, efficient and well designed fryer that won't let you down

- Mechanical thermostat for maintaining oil temperature to within $\pm 8^{\circ}\text{C}$ of the temperature set
- Enhanced operator safety with front mounted control panel

- Rear-mounted slot-in lid that also acts as a splashback and basket support
- One piece pressed stainless steel tank with rounded corners for increased durability and reduced cleaning times

ECO

The Eco range takes up a minimum of space on work surfaces.

Budget Counter Top Fryers

Ideally suited for:

- Cafes
- Pubs
- Restaurants

Why choose Eco?

- Ideal for the supply of portions of chips, as an occasional fryer or for cooking highly flavoured food
- Mechanical thermostat for maintaining oil temperature to within $\pm 8^{\circ}\text{C}$

- One piece pressed stainless steel tank with rounded corners
- Lift-out control panel for reduced cleaning times
- Weld-free construction adds strength and durability

Find out more on page

F44

silofrit

Crisp, succulent, piping hot fries every time.

Free Standing, Built In and Counter Top Chip Scuttles

Ideally suited for:

- Quick Service Restaurants
- Restaurants

Why choose Silofrit?

- Crisp, delicious, piping hot fries every time
- Fries are kept piping hot and crispy by the infrared lamp above, as well as the drain plate with attached element beneath

- For added convenience the removable gastronorm and drain plate can be cleaned in the dishwasher
- Manufactured in durable 304 grade stainless steel

Find out more on page

F46

Super*easy pasta

Designed and built to ensure longer life in the harshest of conditions.

Pasta Cooker

Ideally suited for:

- Quick Service Restaurants
- Restaurants

Why choose the Super Easy Pasta Cooker?

- Enables you to cook all types of pasta reliably and consistently with great results
- High outputs of pasta enable you to keep pace with demand, even during peak periods

- Plumbed to fresh water supply and waste for quick, easy filling and drainage of tank
- Superior resistance to punishing salt and starch corrosion with a grade 316 stainless steel single pressed tank and corrosion resistant incoloy heating element

The Frying Challenge

Consistency and Quality of Food

Consistency is a crucial element for any foodservice operation to maintain not only a great reputation but also returning customers. The cooking equipment specified plays a critical role in this for any operation, large or small.

Food Wastage

Between 33-50% of all food produced globally is never eaten, and the value of this wasted food is worth over \$1 trillion.

Not only are all of the resources that went into creating the uneaten food wasted but when food waste goes to landfill, it decomposes and creates methane, which is 23x more deadly than carbon dioxide.

Oil Usage

The most costly ongoing expense when operating a professional fryer is the cooking oil.

Reducing the amount of oil you use is the most cost-effective way of dealing with it. This is also the best option for the environment.

Energy Usage

Energy consumption in foodservice operation has always been high. With energy costs increasing the hospitality industry needs to adapt to reduce energy use and carbon emissions.

Limited Kitchen Space

Commercial kitchens are getting smaller. Around the world, foodservice operations are increasing profitability by shrinking kitchens and dedicating more space to front-of-house. Many new food concepts, such as pop-up restaurants and food trucks, have limited space.

Dietary Requirements and Restrictions

Meeting individual dietary requirements is a growing challenge and can be both costly to the health of your customers and also your reputation if you get it wrong. Food allergies and intolerances are at an all-time high, and as we become more multicultural as a society there is a need to cater to religious and cultural diets as well.

ColourCue

Success ultimately depends on the quality and consistency of the food you produce. Deliver incredibly accurate and uniform cooking every time.

FriFri is your new kitchen assistant, helping you to deliver quality results every time.

— Super Easy — Precision & Touch — Standard Electric Fryer

That all-important crunch!

Electronic temperature control, powerful elements and fast recovery, maintain oil to within $\pm 1^\circ\text{C}$ of your required setting. This prevents food from absorbing excess oil and ensures that it has that all important crunch!

Keeping your oil in peak condition!

FriFri Oil Assistant and xFri® pumped oil filtration enables you to easily monitor the condition of oil with the on-screen oil status bar. When prompted filter the oil even while its still hot, mid service if necessary, and resume frying in under five minutes. It is so quick and easy there is no excuse not to!

One touch perfect food!

With 24 programmed icon driven menu items, regardless of the operator, at one touch, deliver precisely the same results every time.

Are there more fries than last time?

Adaptive cooking automatically adjusts the cooking times to suit your batch size ensuring you never serve undercooked food.

Raising food to the next level

Perfect for kitchens where you don't have time for constant supervision, LiftFri® automatic basket lifting system lifts food at the end of the cycle to prevent overcooking.

Easy-View Traffic Light Status—ColourCue

Great for busy and noisy kitchens, ColourCue shows you the status of your fryer at a glance: **red** - attention required such as unload; **amber** - pre-heating; **green** - ready to fry.

Data driven quality

For the ultimate repeatable results view your fryer usage data - hours of operation coupled with the number of cook and filter cycles.

Consistency across sites

Ensure consistent, great quality results across multiple sites, configure and clone your menu easily via USB.

FriFri has been offering the same high quality to its customers for over 70 years

Limited Kitchen
Space

Dietary Requirements
and Restrictions

Design

A fryer that fits in perfectly with
your kitchen and your needs

Deliver big in a small space!

Offering high output from minimal footprint, with models from just 200mm wide, FriFri work wonders even in limited spaces.

FriFri - build your perfect fryer!

There is a FriFri for every type of foodservice operation; from hospitals to food trucks, to ships. From 200mm to 600mm wide, free standing on legs or castors (available as an accessory), drop in or SOLAS, there is a fryer for you!

And it doesn't end there! Customise your fryer with a choice of power ratings, and optional features such as basket lifts and pumped filtration.

Just see our Fryer Designer below for all the options available to you!

Operation at a level to meet your needs

FriFri can be as automated as you need to support your operation, whether you require easy one touch

icon driven operation or you want to be more hands on with your frying, there is a FriFri fryer to support your kitchen set up.

Superior build

Corrosion-resistant 304 grade stainless steel pressed tanks offer superior strength and durability - we are so confident in the life of our tanks that they come with a 10 year warranty. A fully rounded profile with radiused corners and a robust hinged element makes cleaning easier and quicker.

Safety first

Included on all Touch models as standard Fryer Chief is an essential safety feature preventing flare-ups and fires from dangerously low oil levels. Software monitors the oil level and valve mechanism to guard against human errors, such as turning on the fryer without checking the oil level or leaving the drain valve open.

Drainage for our integral filtration system is through the body of the fryer to a quick release bucket, safe

and mess free. A stainless steel bucket collects filtered oil housed within the cabinet for returning to the tank.

The xFri® integrated oil pump removes the need to manually return oil to the tank or have any contact with the hot oil, reducing the risk of spillages and accidents.

Optimum allergen control

Supplied with separate filtration systems and buckets, twin and triple tank models provide completely segregated gravity filtration for optimum allergen control or to cater for dietary preferences.

The optional Food Segregation Management Pack (FSM) enables components and baskets which can be swapped to be colour-coded to stop them being mixed-up.

A future proofed investment

With easy to apply USB updates.

Energy Usage

Food Wastage

Oil Usage

Eco

FriFri brings together a number of features to help you deliver your eco goals; reducing energy usage, minimising food waste and limiting oil usage.

Great delivery

A compact tank design and efficient cool zone guarantees reduced oil usage, fast heat up and a high output to oil ratio.

Fast recovery

With a greater surface contact with the oil, unique horizontally coiled elements coupled with electronic temperature control together deliver energy efficiency and faster recovery.

Eco mode

Utilising the eco mode, if the fryer is inactive for the a set period of time, it will automatically reduce to a user defined temperature. This not only delivers energy savings and extends the life of the oil and elements, it also makes for a cooler, more comfortable working environment for staff.

Insulation

Fully insulated tanks reduce heat loss.

Reduce oil usage

Extreme temperatures and carbonised food debris are two major contributors in oil degradation. Tight temperature control and the dual filtration system combined with the eco mode prolongs oil life, reduces oil usage and the volume of waste oil.

Cook what you need, when you need it

Its not just the food waste created from cooking more food than is needed, it is also the energy, oil and labour required to produce it. To minimise waste a fryer with multiple baskets can be used to fry small batches simultaneously or twin and triple tank fryers can be used to cook portions requiring different temperatures.

Zero waste just perfectly cooked food

Adaptive cooking will automatically adjust cooking times to suit your batch size to make sure you are not serving undercooked food. LiftFri® automatic basket lifting system will ensure food is not overcooked.

Sustainable design from cradle to grave

Pressed tanks remove the environmental costs of welding and the weaknesses associated with welds and joins. We are so confident in the life of our pressed tanks that they come with a 10 year warranty.

FriFri electric fryers are up to 35% more energy-efficient than a typical gas fryer

Energy Usage

Oil Usage

Oil

Success ultimately depends on the quality and consistency of the food you produce. The three enemies of oil - heat, carbon build up and oxygen - can damage oil, affecting the texture, taste and overall flavour of the food you produce. These enemies will also reduce the life of your oil, increasing your oil purchase and disposal costs.

Enemy 1 - Extreme temperatures

FriFri's heating elements have a larger surface area in contact with the oil. Gentle heat distribution across the oil's surface prevents the oil from scorching and ultimately degrading. This, together with tight temperature control ensures extended oil life.

The fat melt cycle for operations using solid fat guards against oil burn in localised areas. The elements pulse melting the fat gently.

Enemy 2 - Carbonised debris

During frying, food pieces break off, eventually becoming burnt carbonised debris. If you continue

using the oil it will affect the taste and appearance of food.

Our integral filtration system extends oil life by up to 75% saving you money on oil purchase and disposal costs. The dual filter system removes debris and carbonised particles.

Easily monitor the condition of oil with the on-screen oil status bar, once the user set life cycle has been reached Oil Assistant will prompt to drain and filter the oil.

The xFri® Integrated oil pump will filter the oil at the touch of a button, even while it's still hot, mid-service if necessary, and resume frying in under five minutes, making oil changes easy and hassle free.

Enemy 3 - Oxygen

FriFri fryers are supplied with lids so tanks can be covered when not in use.

Kitchens

QPad

Organise your screen to suit your operation. In the recipe manager, Touch enables you to easily set up and position 24 programmed icon driven menu items. Once set each menu icon regardless of the operator, will deliver precisely the same results every time at just one touch!

The 4.3" QPad is intuitive, easy to use and provides the wider functionality and greater control that only a touchscreen can deliver. Make any change with just a single touch.

Energy
Management

Visibility into energy usage and managing energy costs has never been more critical. Touch puts you in control and helps you understand your energy usage. Customise the eco settings by defining the optimum time out and temperature to suit your operation. View where you can make savings with detailed analysis of the fryer's energy usage over the last 8 hours, 24 hours, 7 days and 28 days.

Future Proof
Compact Design

Invest in the future of your business with a Touch fryer. With superior construction, an industry leading high output from minimal footprint, and with easy to apply USB software updates, Touch will ensure happy, satisfied customers for many years to come.

ColourCue

Easy-View Traffic Light Status - great for busy and noisy kitchens, ColourCue shows you the status of your fryer at a glance: **red** - attention required such as unload; **amber** - pre-heating; **green** - ready to fry.

eco
mode

Eco mode not only delivers energy savings and extends the life of the oil and elements, it also makes for a cooler, more comfortable working environment for staff.

Adaptive
Cooking

Are there more fries than last time? Automatically adjust cooking times to suit your batch size ensuring you never serve undercooked food.

Data Management

Data driven quality. For the ultimate repeatable results view your fryer usage data hours of operation coupled with the number of cook and filter cycles. For multi-site operations configure and clone your menu easily via USB.

Oil Management

The most costly ongoing expense when operating a professional fryer is the cooking oil. Touch gives you complete control in managing your oil usage - specify how often, in cook cycles or hours the oil should be filtered. And to help you make informed commercial decisions about your oil usage it provides insight into how often the oil has been filtered and changed.

Oil Assistant

FriFri Oil Assistant enables you to easily monitor the condition of oil with the on-screen oil status bar.

Fryer Chief

Fryer Chief is an essential safety feature which monitors oil levels and detects low levels to prevent flare-ups and fires, protecting operators and customers from harm while also safeguarding the fryer and premises from potential costly fire damage and associated downtime.

Software monitors the oil level and valve mechanism to guard against human errors, such as turning on the fryer without checking the oil level or leaving the drain valve open.

If Fryer Chief is triggered operators are presented with easy-to-understand instructions to enable them to get the fryer back up and running safely.

Optional

xFri® Pumped Oil Filtration Option

xFri® filters oil at the push of a button and returns the cleaned oil to the tank. You can filter the oil safely while it's still hot, mid-service if necessary, and resume frying in under five minutes.

Allergen Control

For optimum oil segregation, fryers with two or three tanks will be supplied with separate oil pumps.

LiftFri® Automatic Basket Lift Option

Great for kitchens where you don't have time for constant supervision, LiftFri® automatic basket lifting system lifts food at the end of the cycle to prevent overcooking.

Precision

For the chef who wants superb temperature control for consistently excellent results, Precision is the fryer of choice.

Ideally suited
for use in

Chains

Independents

Gastronomy

Education

Electronic Temperature Control

Electronic temperature control and powerful elements always maintain oil to within $\pm 1^\circ\text{C}$ of your required setting, reducing oil absorption and ensuring your food always has that all-important crunch. The LED display shows the current oil temperature throughout the cook cycle.

Timer

Set the timer and see the display count down, with the buzzer sounding at the end of the cook cycle.

If the fryer has LiftFri the basket will automatically lower when the oil has reached the correct temperature. At the end of the cook cycle, the buzzer will sound and the basket will rise from the oil. The LED display will then reset to show the set time for the next batch. Perfect for when you want to cook the same product time after time, to the same exacting standards.

Temperature View

Temperature view shows you the current oil temperature, enabling you to make an informed decision as to when to start cooking.

Adaptive Cooking

Are there more fries than last time? Automatically adjust cooking times to suit your batch size ensuring you never serve undercooked food.

Gravity-fed Oil Filtration

Our integral filtration system extends oil life by up to 75% saving you money on oil purchase and disposal costs. The dual filter system removes debris and carbonised particles.

Precision 211 drop-in

Optional

xFri® Pumped Oil Filtration Option

xFri® filters oil at the push of a button and returns the cleaned oil to the tank. You can filter the oil safely while it's still hot, mid-service if necessary, and resume frying in under five minutes.

Allergen
Control

For optimum oil segregation, fryers with two or three tanks will be supplied with separate oil pumps.

LiftFri® Automatic Basket Lift Option

Great for kitchens where you don't have time for constant supervision, LiftFri® automatic basket lifting system lifts food at the end of the cycle to prevent overcooking.

Super*easy

Outstanding value with no compromise in quality or performance.

When budget is a primary consideration, FriFri's unrivalled credentials, know-how and quality are still well within your reach.

Super Easy offers all the benefits you would expect from a FriFri fryer including high output from a small floor area and reliable, efficient performance that delivers consistently excellent fried food.

Quality construction, for example the 304 grade stainless steel pressed pan, and details such as the hinged frying elements will reassure you that Super Easy is anything but a compromise.

Add-on Items

Accessories, consumables, spares and options

SOLAS specification feature modified feet for secure fastening to the floor

Castors available on all freestanding fryers, except, for safety reasons, 211 models

SOLAS-Compliant Fryers

The Touch, Precision, and Super Easy fryer models are available in SOLAS (Safety of Life at Sea) specifications, ensuring safe and dependable performance in marine environments. Designed specifically for marine use, these fryers feature an audible alarm that activates if the high-temperature cut-out fails. Free-standing models come with flanged feet, providing secure fastening to the deck for optimal stability during operation.

Jointing Strips

Upgrade your kitchen configuration with stainless steel jointing strips, expertly designed to connect two or more fryers side by side. This reduces oil ingress between units, maintaining a cleaner and more efficient workspace.

Tailored Solutions for Your Operation

To discuss the wide range of options and accessories available to support your operation, **please contact our team on UK 01522 875500 or Export +44 1522 503250**. We're here to help you create the ideal solution for your needs.

Profi+[★]

As standard

Electronic
Temperature
ControlRotary
Control
Front

Professional performance from a compact, sturdy counter top fryer.

Limited space needn't limit your frying capability. Profi+ is a truly professional fryer. Profi+ offers the same output and features as the Basic+ range. Precise electronic temperature control, for example, maintains oil temperature to within $\pm 1^\circ\text{C}$ of the selected setting.

The control panel is front-mounted – much safer than having to reach over the fryer. Other features include a lid that cleverly slots in at the rear of the fryer. This provides safer storage as well as a convenient splashback and basket support. A front drain valve facilitates safe, easy drainage of used oil.

Ideally suited for use in

- Fine cuisine – Superb temperature control for consistently excellent results
- Restaurants – Consistently produce crisp, succulent, great tasting fried food

Benefits at a glance

- Counter top
- Powerful
- Highly responsive electronic control
- Enhanced operator safety
- Safe and easy to use front draining valve
- Durable

Profi+ 6

Profi+ 10

Profi+ 8+8

- A powerful counter top fryer capable of producing up to 25 kg of chips per hour

frita+ & eco

Affordable, durable and efficient – they won't let you down

Frita+ fryers share many of the design details of the Profi+ range. These include a safe, easy-to-use front valve for draining off used oil and the rear-mounted slot-in lid that also acts as a splashback and basket support. Operator safety is further enhanced by the front-mounted control panel.

All Eco and Frita+ models incorporate a mechanical thermostat for maintaining oil to within $\pm 8^{\circ}\text{C}$ of the temperature selected.

Ideally suited for use in

- Cafes – effortlessly produce fries to support your menu offering
- Pubs – ideal for cooking highly flavoured menu items
- Restaurants – cater for special dietary needs with this standalone fryer

Benefits at a glance

- Durable
- Efficient
- Well designed fryers

Crisp, succulent, piping hot fries every time.

Silofrit chip scuttles ensure fries remain hot and crispy for longer – a real bonus during busy periods.

Silofrit offers counter top, free standing and built in models, all manufactured in durable 304 grade stainless steel. Fries are kept piping hot and crispy by the infra-red lamp above and by a drain plate and element* located beneath.

For added convenience the removable gastronorm/container and drain plate can be cleaned in the dishwasher.

*Excludes built-in model

Ideally suited for use in

- Quick Service Restaurant – providing a continuous supply of hot and crispy fries during busy periods
- Restaurants – great tasting, crisp, succulent, piping hot fries on demand

Benefits at a glance

- Free standing, counter top and built in models available
- Crisp, delicious, piping hot fries every time
- Removable gastronorm and drain plate can be cleaned in the dishwasher
- Manufactured in durable 304 grade stainless steel

Designed and built to ensure longer life in the harshest of conditions.

Experienced chefs and independent kitchens really appreciate the quality, performance and outstanding value of the Super Easy 311 pasta cooker.

With built in and free standing models available, the tank pressed from a single piece of superior grade 316 stainless steel and incoloy heating element provide superior resistance to punishing salt and starch corrosion at high temperatures.

Pasta cookers listed are 3 phase, 400 volt, however we can customise the voltage to suit your requirements.

High outputs of pasta enable you to keep pace with demand, even during peak periods

Ideally suited for use in

- Quick Service Restaurants – smaller baskets enable smaller portions to be cooked in constant rotation
- Restaurants – serve perfect pasta each and every time

Benefits at a glance

- Free standing and built in models available
- Designed and built to ensure longer life in the harshest of conditions
- Enables you to cook all types of pasta reliably and consistently with great results

- High outputs of pasta enable you to keep pace with demand, even during peak periods

- Optional smaller baskets enable smaller portions to be cooked in constant rotation maximising output and efficiency

- Plumbed to fresh water supply and waste for quick, easy filling and drainage of tank

- Starch removal keeps water fresh for longer to ensure perfect results

- Two tilt position elements to aid draining and cleaning

Electricity Supply Requirements

(page 2 of 3)

Electrical products not listed on this page are supplied for operation on a 230/240v, 13 amp supply.

Brand	Product Code	Power Supply/ Connection Type	Electrical Supply Rating [watts]	Single Phase		Three Phase			
				Amps	Voltage	Amps - Phase 1	Amps - Phase 2	Amps - Phase 3	Voltage

Vegetable Preparation

Peelers and Chippers

Ideally suited for:

Fish and chip shops, pubs, restaurants and fast food outlets, prepare a high volume of vegetables at speed with IMC's vegetable preparation solutions.

Why choose IMC Vegetable Preparation Equipment?

- Peel and prepare vegetables at speed
- Increase the efficiency of your kitchen
- Simple and safe to operate

- Easy to load
- Easy to maintain
- Easy to clean
- Robustly engineered
- Provides minimal waste

Find out more on page

Bar Systems & Refrigeration

Under Bar Systems • Bottle coolers • Glass Frosters

Our comprehensive range of commercial under bar and refrigeration equipment is designed to meet the needs of every restaurant, bar and café regardless of shape, size or budget.

Optimum Underbar Systems are designed to help bars work smarter. By creating a more organised, ergonomic, and efficient workspace, Optimum keeps staff moving smoothly, reduces unnecessary steps, and helps service run faster during busy periods. From drink prep and glass washing to storage and point-of-sale, every element is designed to support better workflow, improved productivity, and a consistently great customer experience.

With precise temperature control and rapid chill, our energy-efficient bottle coolers are the perfect showcase for drinks. Across

three ranges - Ventus, Mistral and BM - all models allow easy access for quick service and are available in a range of stylish designs and space-saving sizes.

With rapid chill, our energy-efficient range of glass frosters helps bars to deliver high-quality drinks every time. With three ranges to choose from - Ventus, Mistral and Frostar - each froster provides easy access for quick service and is available in a range of sleek designs, with varying capacities.

Ideally suited for...

Bars

Speed up service and generate customer satisfaction with efficient service and great tasting drinks.

Restaurants

Enhance your customers' dining experience by serving high-quality drinks alongside delicious food.

Hotels

Attract customers in your hotel's bar with great service, stylish bottle coolers and glass frosters. Show your drinks in their best light in a well-designed unit that enhances your offer.

Cafes and coffee shops

Encourage customers to spend by tempting them with well-presented drinks. Highlight your offer and ensure great tasting beverages with a Mistral bottle cooler.

Benefits at a glance

- Maximise serving speed and efficiency
- Optimum delivers a comprehensive modular range including sinks, cocktail stations, ice wells, shelving, till stations, and bridge tops for complete back bar solutions
- Energy efficient coolers with rapid chill for quick service
- Bottle coolers and frosters available in a choice of exterior colours and door options

OPTIMUM

Bartender

OPTIMUM UNDERBAR SYSTEM - A modular approach to high-performance bar design

The optimum standard for modern back bars

Speed. Hygiene. Ergonomics.
These are fundamental to back bar performance—and where poorly specified systems often fail.

Optimum is a modular stainless steel underbar system engineered to deliver a consistent balance of operational efficiency, durability, and ergonomic performance within commercial bar environments.

Available in Optimum (800mm working height, 505mm depth) and Optimum+ (900mm working height, 600mm depth), the system allows specification aligned to operator preference and application.

Built on experience

With over 30 years of manufacturing experience, IMC delivers UK-designed and fabricated bar systems with full control over quality, specification, and finish.

The modular nature of Optimum also allows for bespoke configurations, supporting project-specific design requirements.

Please note: all Optimum Underbar System orders are manufactured to order and supplied with a three-week lead time from receipt of order confirmation. This ensures every system is fabricated to the highest standards and configured to meet individual project requirements.

Why Optimum?

- **Performance-led Design**
Layouts reduce unnecessary movement and support efficient service flow
- **True Modularity**
System-based approach enables flexible configuration and future adaptability
- **Durability**
Manufactured from full 304 grade stainless steel, suitable for high-use environments
- **Ergonomics**
Working heights and unit depths designed for sustained operational use
- **Integrated functionality**
Storage, drainage, prep, and service elements designed as a cohesive system

OPTIMUM

Bartender

System design for workflow efficiency

Optimum is designed as a fully integrated underbar system, where all elements align dimensionally and functionally.

Sinks

- Sink units, handwash basins and glass refresher stations
- Integrated prep capability with chopping board compatibility
- Configured for hygiene compliance and efficient workflow

Ice Wells & Cocktail Stations

- Insulated ice wells with drainage and internal organisation
- Cocktail stations combining ice wells and sink in a single footprint
- Optional condiment storage for garnish management

Shelving & Till Stations

- Flexible storage solutions in multiple widths
- Dedicated till stations with integrated cable management
- Designed to maintain clear, organised work surfaces

Bridge Tops

- Plain tops for preparation areas
- Perforated tops for wet zones and drainage
- Bin and bottle skip void options to support waste management

Engineered for Performance

- Full 304 grade stainless steel, satin finish
- 505mm (Optimum) or 600mm (Optimum+) deep underbar units
- 800mm (Optimum) or 900mm (Optimum+) working heights
- 100mm upstand with 40mm returned edge
- Base shelf and low back panel as standard
- Supplied on height adjustable feet for accurate on-site levelling
- Units bolt together to form a continuous, seamless workspace

Designed & Manufactured in the UK

Precision-built for commercial environments, with a focus on durability, hygiene, and long-term performance.

One-year warranty as standard.

The Result

A coordinated underbar system that supports:

- Improved service efficiency
- Enhanced ergonomics
- Consistent hygiene standards

Optimum is not a collection of units - it is a complete, integrated system for high-performance bar design.

Sinks

The optimum balance of hygiene, performance and ergonomics

Sink design is critical to maintaining workflow, hygiene compliance, and operational efficiency within the back bar.

The Optimum sink range includes sink units, handwash basins, and glass refresher stations, designed for integration within a modular system.

Glass refresher system

- All glass refresher stations are supplied complete with a built-in glass refresher, ready for plumbing.
- The rectangular bowl is designed to accept a green acrylic sliding chopping board, enabling combined prep and rinse functionality.

Bowl configuration by application

- Smallest handwash basin: rectangular.
- All other handwash basins: round.
- Cocktail station sinks: square.
- Square and rectangular bowls feature radius edges to support hygiene.

Service flexibility

- Supplied without taps to allow project-specific selection.
- 30mm tap holes provided as standard.

Result:

A coordinated sink solution that supports efficient workflow, hygiene compliance, and operational consistency.

Bartender

Ice Wells | Cocktail Stations | Blender Station

Optimised for drink preparation efficiency

The Optimum range is designed to support high-speed drink preparation through integrated layout and functional detailing.

Cocktail stations incorporate ice wells and sink, creating a compact, multi-functional prep zone.

Integrated cocktail prep

- Cocktail stations combine ice wells and a sink within a single footprint, with a built-in speed rail that keeps bottles within easy reach—reducing movement and improving service speed.

Ice well performance

- Foil and foam insulation for ice retention.
- Perforated drainer base and dividers for organisation.
- Base creased to 38mm waste outlet for drainage.

Additional functionality

- Optional two and three pan condiment sets for garnish storage.

Result:

Improved drink prep efficiency, reduced operator movement, and consistent service flow.

Plain Bridge Top | Perforated Top

Continuous workspace and functional zoning

Bridge tops provide continuous working surfaces, supporting workflow across the bar.

Plain tops

- Solid surfaces for preparation and service.

Waste integration

- 600mm model with bin void to support waste management

Drainage zones

- Perforated tops with bottle skip voids for wet areas

Layout flexibility

- Available in a range of widths for system integration

Result:

Increased usable workspace, improved workflow continuity, and better space utilisation.

Ventus

With a wide range of options available, Ventus bottle coolers and glass frosters can be tailored to suit any bar environment.

Showcase drinks elegantly, while ensuring they are kept at the optimum serving temperature. We offer a wide variety of bottle coolers and glass frosters, with over 150 options to choose from, to ensure we have a design that complements every bar setting.

Each model has a Dynamic Air Distribution System, and EcoSmart controller, ensuring the most economical running. With a variety of space-saving sizes available, we're sure to have a solution perfect for any available space.

Ideally suited for...

Bars

Keep drinks at the perfect serving temperature to speed up service and generate customer satisfaction with ice cold drinks.

Clubs

Serve ice cold drinks with visual appeal with Ventus. With easy access, large storage capacities and rapid chill, keep the drinks flowing through your busiest periods.

Hotels

Attract customers in your hotel's bar with an elegant bottle cooler or glass froster. Show your drinks in their best light in a well-designed unit that enhances your offer.

Cafes and coffee shops

Encourage customers to spend by tempting them with well-presented drinks. Showcase your offer and ensure great-tasting beverages with a Ventus unit.

With over 150 options available, tailor your Ventus bottle cooler to fit any setting.

Benefits at a glance

- Over 150 options to choose from
- Energy efficient EcoSmart controller
- Quick and easy access
- Variety of sizes to suit the space you have available
- Choice of exterior colours

Ventus Options

Ventus bottle coolers and glass frosters can be tailored to suit any bar environment.

Mistral

Whether it's keeping beverages at perfect serving temperature or frosting glasses to enhance the appearance of drinks, we have an array of solutions.

We offer a wide variety of bottle coolers to suit any bar setting. With precise temperature control and rapid chill, our energy-efficient bottle coolers are the perfect showcase for drinks. Mistral models allow easy access for quick service and are available in a range of stylish designs and space-saving sizes.

With rapid chill, our energy-efficient range of glass frosters helps bars to deliver high-quality drinks every time. Mistral provides easy access for quick service and is available in a range of sleek designs, with varying capacities.

Ideally suited for...

Bars

Speed up service and generate customer satisfaction with great-tasting drinks.

Restaurants

Enhance your customers' dining experience by serving high-quality drinks alongside delicious food. Make sure they are perfectly-presented and taste great with Mistral.

Deliver ice cold drinks with visual appeal with Mistral bottle coolers and glass frosters.

Benefits at a glance

- Chills bottles and frosts glasses to add visual appeal to drinks
- Precise temperature control
- Stylish exterior design
- Large capacity

Hotels

Attract customers in your hotel's bar with a stylish bottle cooler or glass froster. Show your drinks in their best light in a well-designed unit that enhances your offer.

Cafes and coffee shops

Encourage customers to spend by tempting them with well-presented drinks. Highlight your offer and ensure great-tasting beverages with a Mistral unit.

With innovative design and reliable performance, BM bottle coolers are ideal for busy bars.

Featuring a top-loading door, BM bottle coolers are designed for underbar use. They allow bartenders quick access to drinks - providing a perfect storage solution at busy times, when service and stocking are paramount.

Available in two width variations, the BM range perfectly integrates with our Bartender® range of modular underbar systems. Energy-efficient, rapid cooling technology keeps drinks at the ideal serving temperature, whilst innovative shelving makes restocking swift and service quicker.

Ideally suited for...

Bars

Speed up service and generate customer satisfaction with great-tasting drinks. BM bottle coolers can help you deliver.

Restaurants

Enhance your customers' dining experience by serving high-quality drinks alongside delicious food. Keep your beverages at perfect temperature with BM.

Clubs

Need to serve a high volume of customers at the same time? With easy access and large storage capacities, BM can help you meet high demand through your busiest periods.

Serve perfectly-chilled drinks at speed with BM's top-loading bottle coolers.

Benefits at a glance

- Top-loading design for easy access
- Rapid chill for quick service
- Precise temperature control
- Energy efficient
- UK 3 pin plug
- Stylish exterior design for underbar systems

BM70 Top Loading Bottle Cooler

- Top loading design, with sliding cover, ensures fast and easy access to ice cold drinks.
 - Rapid cooling so drinks can be served quickly.
 - Stylish, vertical storage for 140 bottles.
- Interior lighting and shelving for enhanced display and storage.
 - Stylish exterior to suit any commercial bar setting.
 - UK 3 pin plug allows users to simply plug in and switch on.

Frostar

Enhance the taste and appearance of drinks with Frostar glass frosters.

Nothing beats a cocktail or beer served in an ice cold, frosted glass. Frostar frosters ensure rapid cooling and frosting of all type of glasses.

The perfect partner for any busy bar setting, Frostar frosters chill glasses to -17°C to keep drinks colder for longer, removing the need for ice, which

dilutes taste. This makes them the ideal choice for cocktails, beers and champagne. With a top-loading design, they enable staff to deliver high-quality, ice cold beverages quickly and efficiently.

Ideally suited for...

Bars

Want to keep customers coming back? Serve drinks that look fantastic and taste great. Frostar frosters deliver ice cold glasses that enhance visual appeal and keep beverages colder for longer.

Restaurants

Complement a strong food menu with sensational cocktails and ice cold beers. Make sure they are perfectly-presented and taste great with Frostar.

Clubs

Serve ice cold drinks with visual appeal with Frostar. With easy access, large storage capacities and rapid chill, keep the drinks flowing through your busiest periods.

Serve perfectly-presented, great-tasting drinks with speed with Frostar glass frosters.

Benefits at a glance

- Chills and frosts glasses to add visual appeal to drinks
- Rapid cooling to -17°C
- Precise temperature control
- Stylish exterior design
- Large capacity
- Quick and easy access to glasses

Frostar FR60

Frostar FR60 Top Loading Glass Froster

- Chills and frosts glasses, to enhance the taste and appearance of drinks

VQ PEELER

In busy kitchens, staff need to be able to prepare potatoes quickly and efficiently. Save time and effort with a VQ peeler.

VQ peelers are compact and powerful, making them ideal for small to medium-sized kitchens where space is at a premium, but performance cannot be compromised.

Two sizes are available, which have the capacity to process vegetables in either 3.5kg or 7kg batches. The 3.5kg unit can process 62.9kg of potatoes per hour and the 7kg capacity unit - 90kg. VQ bench-top peelers have a small footprint and quiet running motor, enabling them to be used in the smallest of

kitchens. A heavy-duty belt and pulley system makes the peeler easy and safe to use.

**Want to peel potatoes with speed?
VQ peelers will produce high
volumes from a small footprint.**

Ideally suited for...

Fish and chip shops

Reduce customer waiting times by investing in speedy preparation equipment behind the scenes. A VQ peeler produces high volumes from a small footprint.

Pubs and restaurants

In busy kitchens, make food preparation quick and easy with a VQ peeler. Focus your efforts on cooking and serving.

Fast food outlets

Serve food quickly by preparing potatoes ahead with a high output VQ peeler.

Benefits at a glance

- Able to peel potatoes at speed
- Small footprint
- Simple and safe to operate
- Easy to clean
- Robust construction

VQ 3.5 Potato Peeler

- Able to peel 62.9kg of vegetables per hour, in 3.5kg batches
- Small footprint and quiet operation, ideal for smaller kitchens
- Compact design for countertops and sink drainers
- Heavy-duty belt and pulley for simple and safe operation
- Self-draining cylinder with smooth profile for easy cleaning
- Long-lasting, rust-proof cast aluminium plate for effective peeling
- WRAS-approved Class A air-break and brass spray nozzle to prevent water escape

VQ 7 Potato Peeler

- Able to peel 90kg of vegetables per hour, in 7kg batches
- Small footprint and quiet operation, ideal for smaller kitchens
- Compact design for countertops and sink drainers
- Heavy-duty belt and pulley for simple and safe operation
- Self-draining cylinder with smooth profile for easy cleaning
- Long-lasting, rust-proof cast aluminium plate for effective peeling
- Class A air-break and brass spray nozzle to prevent water escape

SP PEELER

SP peelers are amongst the fastest potato peelers on the market, helping you deliver through the busiest periods.

SP peelers make fresh potatoes as quick and easy to use as pre-prepared products. Their compact design ensures that even the 25kg model takes up a minimum amount of floor space. They are also safe and simple to use, and minimise staff labour.

Not only are these peelers the easiest and quickest to clean, they're also built to last, with exceptional durability and outstanding reliability. With a choice of pedestal heights, capacities and outputs, there's an SP Peeler to suit your working

environment. The thickly-gritted, non-rusting cast aluminium peeler plate is robust and offers a long service life. The hygienic brushed stainless steel finish is easy to wash, whilst the lid and peeling plate are quick and easy to remove for cleaning.

For high-speed peeling and high output, invest in a space-saving SP peeler.

Ideally suited for...

Fish and chip shops

Take the stress away from peak periods with an SP peeler - prepare high volumes of potatoes for chipping.

Pubs and restaurants

Keep up with demand at busy times with an SP peeler. Peel large quantities of potatoes in super quick time.

Fast food outlets

Where speed is crucial, accelerate your food preparation process with an SP potato peeler.

Benefits at a glance

- Able to peel high volumes of potatoes, fast
- Compact footprint
- Safe and simple to operate
- Long-lasting, robust construction
- Easy to maintain

SP12 Potato Peelers

- Able to peel 12kg of potatoes in 2 minutes - up to 220kg per hour
- Low pedestal version, the perfect height to empty into a sink
- Upright design with small footprint, ideal for medium and large operations
- Lubricated, heavy-duty gearbox makes peeling operation smooth and reliable
- Dual position waste outlets and smooth cylinder base for quick, easy cleaning
- Long-lasting, rust-proof plate and reversible liners for effective peeling
- WRAS-approved Class A air-break and brass spray nozzle to prevent water escape

MF

MULTI-FUNCTIONAL
PEELER

Versatile and available in a range of sizes, MF peelers produce perfectly-prepared vegetables.

Offering a great deal more than just vegetable peeling, our MF models are essential all-rounders for any commercial kitchen. Designed to peel a full load of potatoes or other vegetables in little more than a minute, these versatile, highly-efficient units free up time for other preparation tasks.

The MF Range is available with a wide range of plates, each designed to perform a different function.

Practical features include a viewing panel to monitor progress, an interlocking lid for safe operation and an adjustable timer for repeatable, consistent results. In addition to the standard long-life peeling plate, options include a knife plate to give a smoother look to potatoes and carrots, whilst onions and shallots have their own special plate and liners. There's a washing plate for use with summer vegetables, as well as a plate for cleaning mussels and a salad spinning basket.

Ideally suited for...

Fish and chip shops

Want to save time on food preparation so you can serve more customers? A multi-functional MF peeler is the perfect partner for your kitchen.

Pubs and restaurants

Keep customers happy with high-quality food and great service. Speed up food preparation time with an MF peeler.

Fast food outlets

Satisfy customers with speedy service. Accelerate your food preparation process with an MF peeler.

Multi-functional and efficient, the MF range saves operators valuable time.

Benefits at a glance

IMChip

PC2 Chipper

Produce 25kg of chips per minute with the PC2 Chipper.

This flexible unit can be mounted on a drainer, worktop or stand, making it the ideal solution for kitchens of any size. Screw-down, rigid knife blocks in four different sizes, provide the perfect cut every time, with minimal waste.

To cut chips to the perfect size and shape, the PC2 Chipper is supplied with a knife block in a size of your choice: 12mm, 14mm, 17mm by 14mm, or 21mm by 17mm. Its extra large hopper, with safety interlock makes for quick and easy loading, meaning potatoes can be loaded quickly and easily, so that kitchens can keep up with demand at busy times.

Ideally suited for...

Fish and chip shops

Take busy periods in your stride with a PC2 Chipper, which can produce 25kg of perfectly chipped potatoes a minute.

Pubs and restaurants

Enhance the main event by serving perfectly-cut chips on the side. The PC2 Chipper produces high volumes, fast, to speed up serving times.

Fast food outlets

Service speed is crucial in a fast food restaurant. Shorten waiting times with a PC2 Chipper, which can produce 25kg of chips in just one minute.

Need to produce a high volume of chips quickly? The PC2 Chipper delivers 25kg a minute, saving kitchens valuable time.

Benefits at a glance

- High output - 25kg per minute
- Compact design
- Provides minimal waste
- Safe to operate
- Robustly engineered
- Easy to clean
- Easy to load

PC2 Chipper

- Able to produce 25kg of chips per minute
- Compact design, with flexible mounting options, to suit kitchens of any size
- Large-capacity 12kg hopper allows quick and easy loading
- One-piece knife block design for quick and safe cutting, with minimal waste
- Supplied with knife block - 12mm, 14mm, 17mm, or 21mm sizes available
- Engineered using heavy-gauge stainless steel, for longevity and easy cleaning
- UK 3 pin plug allows users to simply plug in and switch on
- Please specify a knife block option at point of ordering chipper

Waste Management

• Food Waste Disposers • Waste Compactors

Create a cleaner, safer working environment and save time and money, by investing in efficient waste management equipment.

From leftovers on a plate, to high volumes of packaging, we have a wide variety of solutions to handle both food and dry waste. Our range of equipment spans waste disposers and compactors, to suit operations large and small.

Waste disposers provide a fast and efficient way to process food waste,

to create a cleaner, safer working environment and save on waste handling time.

Waste compactors cut waste volumes, which saves valuable handling time and reduces collection costs. They help organisations improve recycling rates and save on storage space.

Ideally suited for...

Pubs & Bars

Make the management of waste quick and easy - saving valuable staff time that can be spent serving customers.

Nursing homes

Meet the best hygiene practices.

Hospitals

Handle high volumes of waste quickly, efficiently and cost-effectively.

Factories

Boost your recycling efforts and become greener by compacting your waste.

Make the management of waste quick and easy and saving valuable staff time.

Benefits at a glance

- Compact and efficient
- Remove waste quickly
- Safe and easy operation
- Reduces costs, saves time

Contents

WASTE STATION

Food Waste Management

Reducing the volume of food waste by up to 80% and the mass by up to 60%

Ideally suited for:

Restaurants, hospitals, care homes, schools, make the management of waste quick and easy.

Why choose WasteStation?

- Waste removal savings - reduce waste collection costs by up to 80%
- Reduce your carbon footprint - Lower frequency of vehicles collecting your waste
- Storage Savings - by reducing on site waste storage facility requirements
- Labour Savings - reduce staff time processing and managing waste
- Energy Savings - low operating costs and minimal use of kitchen floor space.
- Maximise Kitchen Hygiene
- Increases quality of dry recycling due to less contamination from food

IP COMPACTOR

Waste Compactors

Cut waste volumes by up to 80%

Ideally suited for:

Whether you are a small hotel, restaurant, large school, hospital, shop, factory or ship, handle high volumes of dry waste quickly, efficiently and cost-effectively with an IP compactor.

Why choose IP Compactor?

- Cut your waste volumes by up to 80%
- Cut your waste collection costs
- Designed to compress all dry waste, including cardboard, tins, plastic and paper
- Tough, reliable and simple to use
- Quiet, safe and energy efficient
- Avoid heavy lifting, models with trolley or bin to wheel to disposal point
- Minimise the area needed for waste storage

WASTE STATION

Food waste typically represents around 40% of total commercial catering waste. It is difficult and costly to process and dispose of this efficiently.

Of this 40%, approximately 77% is liquid. WasteStation grinds the food waste into fine particles, which are fed directly into a built-in dewatering system, or for where space in the kitchen is limited, a remote dewatering system. Through centrifugal action, excess liquid is forced out.

The resulting solid fraction of the food waste is collected in small, easily managed, lidded bins, ready for onward processing.

Ideally suited for...

Restaurants

Make the management of waste quick and easy - saving valuable staff time that can be spent serving customers.

Care homes

Meet the best hygiene practices

Hospitals

Waste Station can handle high volumes of waste quickly, efficiently and cost-effectively.

Schools

With the WasteStation and WasteStation compact, we have a waste solution whatever the size of your school.

WasteStation reduces the volume of food waste by up to 80% and the mass by up to 60%

Benefits at a glance

- Waste removal savings - reduce waste collection costs by up to 80%
- Reduce your carbon footprint - Lower frequency of vehicles collecting your waste
- Storage Savings - by reducing on site waste storage facility requirements
- Labour Savings - reduce staff time processing and managing waste
- Energy Savings - low operating costs and minimal use of kitchen floor space.
- Maximise Kitchen Hygiene
- Increases quality of dry recycling due to less contamination from food

Food Waste Management

WasteStation

Page i75

Reliable and efficient, the WasteStation allows staff to quickly reduce the volume of food waste, making it ideal for a wide range of applications including hotels, restaurants, hospitals, canteens, and prisons processing up to 1450 covers per hour.

The macerator and dewaterer reduce the waste volume by up to 80%, reducing on site storage as well as waste collection costs.

WasteStation Compact 2

Page i75

Compact and space saving the WasteStation Compact offers establishments of up to 850 covers the same benefits as the WasteStation for plate and medium food waste, all within a 40% smaller footprint. Single or 3 phase version available.

Ideal for small to medium size hotels, restaurants, nursing homes and schools.

WastePro II

Page i76

The flexibility of WastePro II provides a cost effective system for commercial and institutional kitchens. Connected to a suitable existing IMC or alternative brand waste disposer in either a standalone or trough configuration WastePro II removes excess liquid from macerated food waste through centrifugal action, reducing the volume of waste by up to 80%.

WASTE STATION

80% reduction in waste – for every 5 wheelie bins you would normally fill with food waste, fill just 1!

Food waste typically represents around 40% of total commercial catering waste. Of this 40%, approximately 77% is liquid. WasteStation grinds the food waste into fine particles, these particles feed directly into the built-in dewatering system. Through centrifugal action, the WasteStation forces out the excess liquid from the macerated waste.

This “grey water” is fed directly to drain, the resulting solid fraction of the food waste is collected in small, easily managed, lidded bins, ready for onward processing.

Transport Savings

- Reduce waste collection costs by up to 80%.

Storage Savings

- By reducing the waste volume, on site waste storage facility requirements are also reduced.

Labour Savings

- Reduce staff time processing and managing waste. No loading schedule, process waste as and when you need to.
- Self-cleaning operation – WasteStation can undertake a thorough clean ensuring the whole system is free of food and grease.
- Self-emptying – this eliminates the need for staff to empty the auger assembly reducing labour. The intelligent electronic sensor, detects when the bin is full.
- Visual control panel – kitchens are a noisy environment, WasteStation incorporates a simple LED display to allow monitoring of the equipment during operation.

Energy Savings

- Compact design and short processing times ensure low operating costs and minimal use of kitchen floor space.

Maximising Kitchen Hygiene

- Self-rinse system – following each operation the machine undertakes a quick rinse cycle preventing any build-up of food and the associated odour.
- Fully enclosed system – prevents food entering the unit, keeping the machine clean and free of waste and reducing operational noise.

Ideally suited for

There is a WasteStation to suit the scale of your operation from WasteStation Compact 2 for organisations producing up to 400 kg waste per hour, 850 covers to the larger WasteStation for organisations producing up to 700 kg waste per hour, 1450 covers.

WASTE STATION

WastePro II

Connected to a suitable existing IMC or alternative brand waster disposer in either a standalone or trough configuration WastePro II removes excess liquid from macerated food waste through centrifugal action, reducing the volume of waste by up to 80%.

WastePro II is ideal in instances where food waste can no longer be disposed of via mains drainage, either due to technical restrictions or legal regulations. The grey water is dispensed direct to drain whilst the solid waste is captured in a lidded bin for subsequent onward processing. The flexibility of WastePro II provides a cost effective system for commercial and institutional kitchens.

Features and Benefits

No need to replace existing waste disposer

- Simply connect to existing waster disposer in either a standalone or trough configuration
- Minimal disruption to kitchen

Ensures compliance with technical and legal restrictions

- Where food waste cannot be disposed of via mains drainage

Ideally suited for

- Kitchens with an existing waste disposer
- Where food waste cannot be disposed of via mains drainage either due to technical restrictions or legal regulations
- Cost-effective system for almost all commercial and institutional organisations

Create a cleaner, safer working environment and save time and money, by investing in efficient waste disposal equipment.

With a compact design, 700 series waste disposers offer an excellent solution for the disposal of medium waste – small pork and chicken bones, vegetables and fruit.

800 series, 04 and 04X series food waste disposers offer quick and easy removal of high quantities of tough food waste, including red meat bones, cauliflower stalks and fish skins.

Ideally suited for...

Vulture food waste disposers provide a fast and efficient way to process food waste, making it perfect for a range of applications, such as:

Pubs & bars

Make the management of waste quick and easy – saving valuable staff time that can be spent serving customers.

Nursing homes

Meet the best hygiene practices

Hospitals

Handle high volumes of waste quickly, efficiently and cost-effectively.

Waste disposers provide a fast and efficient way to process food waste, to create a cleaner, safer working environment and save on waste handling time.

Benefits at a glance

- Compact and efficient
- Remove waste quickly
- Safe and easy operation
- Reduces costs, saves time

Food Waste Disposers

700 Series

Page i80

700 series food waste disposers allow small to medium-sized kitchens to remove waste quickly and efficiently, making them perfect for hotels, restaurants, schools and hospitals.

With a compact design, 700 series waste disposers offer an excellent solution for the disposal of medium waste – small pork and chicken bones, vegetables and fruit. A range of mounting options can be specified to suit each outlet, making the unit quick and easy to load, saving staff time.

800 Series

Page i81

Fast and powerful, 800 series food waste disposers provide the perfect solution for large catering operations, such as larger hotels, hospitals, universities and prisons, plus food preparation companies.

800 series food waste disposers offer excellent throughput and reliable performance with low operating costs. They allow the quick and easy removal of high quantities of tough food waste, including red meat bones, cauliflower stalks and fish skins. A range of mounting options can be specified to suit each outlet, making the unit quick and easy to load, saving staff time and labour.

04 & 04X Series

Page i82/i83

Reliable, efficient, safe and easy to operate, 04 and 04X waste disposers allow large operators to process heavy-duty food waste, quickly and efficiently.

Designed for use in large hotels and restaurants, hospitals, prisons, universities and by food preparation companies, 04 series waste disposers can handle medium to tough waste including fish skins, cauliflower stalks and larger meat bones. A range of mounting and hopper rim options can be specified to suit each outlet, making the unit quick and easy to load, saving time and energy.

IP COMPACTOR

Cut waste volumes by up to 80% with an IP Compactor.

Designed to compress all dry waste, including cardboard, tins, plastic and paper, our range of IP Compactors are tough, reliable and simple to use.

The IP waste compactor range has been developed to meet the needs of almost every application, from small hotels and restaurants to large schools, hospitals, shops, factories and ships. IP Compactors will give you a fast return on your investment, help you to improve hygiene standards and minimise the area needed for waste storage.

Manufactured from stainless steel, they are quick and easy to clean. Each incorporates proven electro-hydraulic technology to ensure that waste is compacted in seconds. Quiet, safe and energy efficient, IP Compactors operate from a standard 13 amp plug.

Our units are compact, easy to use and mounted on heavy duty casters or deck feet, so they can be located wherever waste is produced. Waste is fed via a loading chute into an integral trolley, lined with a tough, sealable plastic bag. In the case of the larger model, it is fed directly into standard 240-litre wheeled bins.

Ideally suited for...

Compress all dry waste in one compact unit. IP Compactors are suitable for:

Hotels and restaurants

Save valuable staff time and cut collection costs with a powerful waste compactor. IP Compactors can help streamline your waste management processes.

Hospitals

Handle high volumes of waste quickly, efficiently and cost-effectively with a waste compactor.

Factories

Boost your recycling efforts and become greener by compacting your waste. IP Compactors can help deliver cost savings and reduce staff labour.

Ships

Need to handle high volumes of waste from on-board retail and leisure outlets, and passengers? Let our IP Compactor solve the problem - whilst saving you time and money.

Boost your recycling efforts with an IP Compactor.

Benefits at a glance

- Cut your waste volumes by up to 80%
- Designed to compress all dry waste, including cardboard, tins, plastic and paper
- Tough, reliable and simple to use
- Quiet, safe and energy efficient
- Avoid heavy lifting, models with trolley or bin to wheel to disposal point
- Minimise the area needed for waste storage

IP COMPACTOR

IP400 Waste Compactor

- Small to large applications
- Cuts waste volumes by up to 80% and lowers waste handling and collection costs
- Compresses all dry waste - cardboard, tins, plastic and paper
- Powerful electro-hydraulic technology enables waste to be compacted in seconds
- Compact, easy-to-move unit can be conveniently located where waste is produced
- Manufactured from stainless steel making it tough, reliable and easy to clean
- UK 3 pin plug allows users to simply plug in and switch on

IP500 Waste Compactor

- Small to large applications
- Cuts waste volumes by up to 80% and lowers waste handling and collection costs
- Compresses all dry waste - cardboard, tins, plastic and paper
- Powerful electro-hydraulic technology enables waste to be compacted in seconds
- Compact, easy-to-move unit can be conveniently located where waste is produced
- Manufactured from stainless steel making it tough, reliable and easy to clean
- UK 3 pin plug allows users to simply plug in and switch on

Cleaning & Rinsing

- Mobile Hand Wash Stations • Mobile Hand Sanitising Stations
- Power Brush • Compact Hose Reels

Meet stringent hygiene standards and save valuable staff time with effective cleaning and rinsing solutions.

From pots, cookware and utensils to kitchen wash-up areas, cleaning is always high on the agenda in catering operations. Our range of equipment includes pre-rinse sprays and pan scrubbers, mobile hand wash units and compact hose reels, enabling staff to work quickly and productively whilst improving hygiene standards.

A variety of Mobile Hand Wash Stations, with both heated and ambient models available, provide a simple, hygienic solution to help increase hygiene standards wherever required.

Remove food scraps, sauces and juices quickly and simply from crockery using a Pre-Rinse Spray, or more stubborn deposits from pans and cookware using a Pot Boy pan scrubber, significantly improving the effectiveness of subsequent dishwasher cleaning.

Compact, space-saving Reel-Kleen hose reels - with a retractable hose to reduce the risk of tripping - can be mounted on the wall, ceiling or floor, and are perfect for cleaning kitchen wash-up areas.

Ideally suited for...

Restaurants

Spend less time cleaning up and more time producing fine food and drink and delivering fantastic service. Pre-rinse Sprays improve dishwasher performance, guaranteeing clean, hygienic crockery and glassware.

Nurseries and schools

The IMClean Junior Mobile Reduced Height Hand Wash Station is more than just a sink. With its splashback, soap dispenser and paper towel holder it is a fully mobile, all-in-one compact solution which can be located anywhere - even the middle of the playground.

Benefits at a glance

- Helps meet healthy and safety, and hygiene standards
- Effective removal of food debris
- Saves time and increases efficiency
- Safe and easy to use

Cost Sector

Whether you're a school, hospital or university kitchen, speed up the cleaning of pans and cookware with Pot Boy. It is ideal for removing tough debris, saving on staff wash-up time.

Contents

Mobile Hand Wash Stations

Provide extra hand wash facilities without the need for plumbed services

Ideally suited for:

Organisations looking to extend their existing hand wash facilities.

Why choose a Mobile Hand Wash Station?

- Provide extra hand washing facilities
- No location restrictions, just fill with water and you are ready to go

- Tap dispense via foot action, ensures hygienic operation, with no need for hand contact

i90

Pot Boy Power Brush

Remove burnt deposits from pans and cookware

Ideally suited for:

Restaurants and canteens, looking to meet stringent hygiene standards and save valuable staff time, with an effective cleaning solution.

Why choose a Pot Boy power brush?

- Effective removal of debris
- Saves time and increases efficiency
- Safe and easy to use

Find out more on page

i92

Soak Tank

Remove stubborn carbon, fat and grease deposits from cookware

Ideally suited for:

Any establishment looking to meet stringent hygiene standards and save valuable staff time, with an effective cleaning solution.

Why choose a Soak Tank?

- Effective removal of debris
- Improve the effectiveness and efficiency of subsequent dishwasher cleaning

- Safely holds and transports a high volume of liquids and trays

- Compact footprint for busy kitchens

- Saves time and increases efficiency

SmartVent creates a clean and fresh working environment

The SmartVent Canopy Extraction System is designed to efficiently remove kitchen smoke and odours, making your kitchen a safer and more comfortable place for staff to work in.

A real alternative to expensive bespoke kitchen ventilation, the system is modular in design and robustly constructed. Facing challenging

installation deadlines? The SmartVent Canopy Extraction System can help with that.

The cost-effective system is flexible, with four different length options, it's easy to install, and it's compatible with both gas and electric cooking equipment.

Ideally suited for...

The SmartVent Canopy Extraction System is perfect for the cost conscious buyer working to tight deadlines. It suits a variety of venues, including the following:

Fast food outlets

Are your staff working flat out to deliver quality fast food around the clock? Keep them cool and safe while they work.

Smaller pubs and restaurants

Ensure that your staff are focused only on delivering the very best quality food by keeping the air clean and clear.

Cafes

Perfect for removing smoke and odours to make for a more comfortable experience for your staff as well as your customers.

Efficiently remove kitchen smoke and odours, making your kitchen safer and more comfortable for staff to work in.

Benefits at a glance

- Flexible
- Efficient
- Easy to install
- Cost-effective
- Great for tight installation deadlines
- Gas and electric compatible

SmartVent Canopy Extraction Ventilation System

- Canopy extraction system suitable for use with gas and electric cooking equipment up to 900 series
- Choice of fan position (please see box at bottom of page)
- Variable fan speed enables selection of the required level of ventilation to suit kitchen output throughout the day
- Reduces energy consumption by using lower fan speeds during quieter periods
- Bright energy-efficient LED lighting provided as standard
- Supplied with a wall mounted variable fan speed controller
- Simple to install

MODEL	PRICE £	PRICE €	L	W	D	POWER	WT	
SV1224	£5033	€5787	1200	2400	740	0.12kW	147	

Please note that ductwork and gas interlocks are not included. Please contact our sales desk for advise on suppliers.

When placing an order please specify your preferred fan position by adding one of the following codes to the end of the SmartVent model number.

LH - Left fan horizontally mounted	CH - Central fan horizontally mounted	RH - Right fan horizontally mounted
LV - Left fan vertically mounted	CV - Central fan vertically mounted	RV - Right fan vertically mounted

Example: SV1216RH = 1600mm long canopy with fan positioned to the right and exiting horizontally.
Please refer to the SmartVent brochure for further details.

Britannia

kitchen ventilation

Refresh

Recirculation Unit

For kitchens that require ventless cooking, the Refresh range of self-contained kitchen ventilation and air recirculation systems are the ideal solution.

Free-standing Refresh units are available in a range of sizes and can be installed quickly and easily, with minimal disruption to service. They are equipped with an extract and supply canopy, along with a services tower that houses a powerful, efficient fan unit. Air is drawn out through the canopy, before passing through five filtration stages to remove grease, fine particles, smoke and odours.

The grease and smoke is filtered from the airstream, before passing through a carbon filter set to reduce odours. Filtered air is then reintroduced into the kitchen.

Constructed using durable stainless steel, Refresh units come with a pre-programmed fan control system, filter life monitoring and cook-line equipment interlock interface. The unit is manufactured to the ISO 9001-2015 quality standard.

Ideally suited for...

Struggling with venting to the atmosphere? Solve the problem with Refresh ventilation and recirculation units. They are ideal for a wide range of locations, including:

Restricted buildings

From high-rise buildings to basements, and properties with listed status and planning restrictions, Refresh is the ideal solution. Where venting to the atmosphere is impossible, difficult or costly, it provides a safer, more comfortable working environment.

Concession areas

Concession areas in airports and transport concourses can be difficult locations to vent to the atmosphere. Refresh units require no venting and filter air, providing a better kitchen space for staff

Pubs, snack bars and coffee shops

Ventless cooking is ideal for smaller pubs, snack bars and coffee shops, where ventilation to the atmosphere is difficult or costly. Refresh units are quick and easy to install, and provide a safer, more comfortable working space.

Make your kitchen safer, cleaner and more comfortable with a Refresh ventilation unit.

Benefits at a glance

- No venting required
- For use with electrical appliances
- Accommodate multiple pieces of equipment
- Quick and easy to install
- Multi-stage filtration
- Filter monitor and fan control systems
- Manufactured to ISO 9001-2015
- Durable construction
- Cook-line can be interlocked to the unit

Refresh Recirculation Units

- Highly efficient four stage sequential filtration process removes grease, fine particulate, smoke and odour
- Ideal for use where venting to the atmosphere is impractical
- Suitable for use with electric cooking equipment only
- Free standing in design, their flexibility can increase output in existing kitchens or allow the set up of a cooking station in previously unsuitable areas of a building

Sale Terms & Conditions

Standard Terms & Conditions of Sale

1. DEFINITIONS and GENERAL

1. The Company – Lincat Limited, Whisby Road, Lincoln LN6 3QZ
2. The Buyer – the person, firm or company contracting with the Company.
3. The Contract – any contract between the Company and the Buyer for the sale and purchase of goods upon these terms and conditions.
4. All orders are accepted subject to these Conditions of Sale which shall apply to the exclusion of any terms or conditions put forward by or on behalf of the Buyer.
5. No variation, waiver or addition to these conditions, whether written or oral, shall have effect unless agreed in writing by the Company.

2. DESCRIPTION

1. Although every effort has been made to ensure that the illustration, price, description, measurement and specification of goods in our catalogues, brochures and on the website are correct such information is published for the sole purpose of giving an approximate idea of the goods represented by or described in them. They will not form part of the Contract and this is not a sale by sample. Where any such details are important the Buyer should themselves verify the information before placing an order.
2. The Company reserves the right to modify or vary the design, specification or finish of any of our products without notice.

3. ORDERS

1. The Buyer shall be responsible to the Company for ensuring the accuracy of any order.
2. Cancellations will only be accepted at the Company's discretion. Orders for products with factory fitted options, for example customised products from FriFri, Panther, IMC, are strictly non-cancellable. In the event of a cancellation the Company reserves the right to charge the Buyer against all loss (including loss of profit), costs (including the cost of all material and labour used) damages, charges and expenses incurred by the Company as a result of cancellations.
3. Orders cannot be amended once dispatched, if delivery is refused as a result of being dispatched it will result in a restocking fee, recovery of delivery charges and/or storage charges.

4. PRICE OF GOODS

1. The price of the goods shall be the price listed in the Company's published price list current at the date of despatch of the order less agreed discount.
2. The price of the goods is exclusive of Value Added Tax, which will be charged at the applicable rate at the date of invoice.
3. The price of the goods includes the cost of carriage by the Company's standard three day service to mainland England, Scotland (excluding Highlands) and Wales. Deliveries to other destinations will be charged separately where the Company undertakes delivery of the goods.
4. In the event of any increase in the cost to the Company of supplying the goods caused by any reason whatsoever the Company may on giving notice to the Buyer at any time before delivery adjust the price.

5. TERMS OF PAYMENT

1. The Buyer shall pay the price of the Goods without any deduction within 30 days of the end of the month in which the goods are invoiced. Time for payment will be of the essence. No payment will be deemed to have been received until the Company has received clear funds. All sums payable under the Contract will become due immediately upon termination of the Contract. The Company reserves the right to claim settlement of any outstanding amounts due before this date if there is any change in the financial circumstances of the Buyer.
2. In the event that any payment due to the Company is withheld or delayed the Company reserves the right:
 1. to suspend any further deliveries to the Buyer
 2. charge interest at 2.5% pa above the base lending rate from time to time of the Royal Bank of Scotland Plc on the amount outstanding from the date when payment becomes due until the date of payment.
 3. to recover from the Buyer on a full indemnity basis together with interest thereon all costs incurred by it in obtaining payment including solicitor's fees and costs associated with so doing.

6. DELIVERY

1. The Company will use reasonable endeavours to deliver the goods within the time agreed when the Buyer places an order and, if no time is agreed, then within a reasonable time, but the time of delivery will not be of the essence. If, despite those endeavours, the Company is unable for any reason to fulfil any delivery or performance on the specified date, the Company will be deemed not to be in breach of the Contract, nor (for the avoidance of doubt) will the Company have any liability to the Buyer for direct, indirect or consequential loss (all three of which terms includes, without limitation, pure economic loss, loss of profits, loss of business, depletion of goodwill and like loss) howsoever caused (including as a result of negligence) by any delay or failure in delivery except as set out in this condition.
2. Any costs incurred due to inadequate site access shall be charged to the Buyer.
3. If the Buyer fails to take delivery of the goods the Company shall be entitled to invoice and be paid for the goods as though they had been duly delivered. The Company may arrange storage of the goods until actual delivery and charge the Buyer for the reasonable costs of storage.
4. It is the Buyer's responsibility to inspect the goods at the time of delivery. The Company accepts no responsibility for alleged non-delivery, shortfall of goods, damage on delivery or other discrepancy unless notification in writing is received within 24 hours from the date of delivery. In the absence of such notification the Buyer shall be deemed to have accepted the goods.

7. RETURNS

1. Goods despatched to the Buyer and subsequently accepted for cancellation by the Company will be subject to an abortive delivery charge, as well as any cancellation charge deemed necessary by the Company.
2. The Company at its absolute discretion may agree to the return of goods by the Buyer within 28 days of delivery, provided that the goods are returned at the Buyer's expense, in the same condition and in the original packaging.
3. Any goods agreed by the Company as acceptable for return for any reason (excluding faulty goods) will be subject to a restocking charge of 25% of the net invoiced price, together with the reimbursement of any expense incurred by the Company as a consequence of the return of said goods to the Company's stock.

8. RISK AND PROPERTY

1. Risk of damage to or loss of the goods shall pass to the Buyer at the time of delivery or, if the Buyer wrongfully fails to take delivery of the goods, the time when the Company has tendered delivery of the goods.
2. Notwithstanding delivery and the passing of risk in the goods the property in the goods shall not pass to the Buyer until the full price of the goods and goods which are subject to any other contract between the Buyer and the Company is received in full in cash or cleared funds.
3. Until such time as the property in the goods passes to the Buyer they shall be held by the Buyer in a fiduciary capacity and stored by the Buyer at its premises in such a manner that they are clearly identifiable as the goods of the Company and shall be kept separate from any other goods whether or not supplied by the Company. Until that time the Buyer shall be entitled to sell the goods in the ordinary course of its business but shall account to the Company for the proceeds of sale.
4. Until such time as the property in the goods passes to the Buyer the Company shall be entitled at any time to require the Buyer to deliver up the goods to the Company and if the Buyer fails to do so forthwith to enter upon any premises of the Buyer or any third party where the goods are stored and repossess the goods. The Buyer hereby grants an irrevocable licence to the Company for this purpose.

9. WARRANTY, EXCLUSION OF LIABILITY AND INDEMNITY

1. Warranty
 1. In respect of goods (excluding spare parts and consumable items such as door seals, filters, bulbs, glass and LTX toaster elements) which are proved to the reasonable satisfaction of the Company to be damaged or defective due to defects in material or workmanship, the Company will, free of charge, within a period of 24 months (12 months for IMC Mobile Hand Wash Stations, and Optimum by Bartender) from the date of resale of such goods by The Buyer, either (at the Company's option):
 - repair such goods; or
 - replace such goods; or
 - refund the purchase price of the goods.
 (This applies to Mainland UK only. Exported goods are covered for parts only.)
 2. The obligation in condition 9.1.1 above will not apply where:
 1. the goods have been improperly altered in any way whatsoever, or have been subject to misuse or unauthorised repair;
 2. the goods have been improperly installed or connected;
 3. any maintenance requirements relating to the goods have not been complied with.
 4. the goods are gas powered and have been installed into a mobile catering outlet such as, but not limited to, a catering trailer, in which case the Company's obligation is limited to the free-of-charge supply of spare parts.
 3. Any goods which have been replaced will belong to the Company. Any repaired or replacement goods will be liable to repair, replacement or refund under the terms specified in condition 9.1.1 for the unexpired portion of the 24 month period from the original date of resale of the repaired or replaced goods.
2. Exclusion of liability
 1. for breach of the Company's obligations arising under section 12 Sale of Goods Act 1979 or section 2 Sale and Supply of Goods and Services Act 1982
 2. for personal injury or death resulting from the Company's negligence
 3. under section 2 (3) Consumer Protection Act 1987
 4. for any matter which it would be illegal for the Company to exclude (or to attempt to exclude) its liability, or
 5. for fraud.
3. Except as provided in Conditions 6.1 and 9.1.1 to 9.2.2 the Company will be under no liability to the Buyer whatsoever (whether in contract, tort (including negligence), breach of statutory duty, restitution or otherwise) for any injury, death, damage or direct, indirect or consequential loss (all three of which terms include, without limitation, pure economic loss, loss of profits, loss of business, depletion of goodwill and like loss) howsoever caused arising out of or in connection with:
 1. any of the goods, or the manufacture or sale or supply, or failure or delay in supply, of the goods by the Company or on the part of the Company's employees, agents or sub-contractors
 2. any breach by the Company of any of the express or implied terms of the Contract
 3. any use made or resale by the Buyer of any of the goods, or of any product incorporating any of the goods; or
 4. any statement made or not made, or advice given or not given, by or on behalf of the Company
 5. or otherwise under the Contract
4. Except as set out in conditions 6.1 and 9.1.1 to 9.2.2 the Company hereby excludes to the fullest extent permissible in law, all conditions, warranties and stipulations, express (other than those set out in the Contract) or implied, statutory, customary or otherwise which, but for such exclusion, would or might subsist in favour of the Buyer.
5. Each of the Company's employees, agents and sub-contractors may rely upon and enforce the exclusions and restrictions of liability in conditions 6.1 and 9.2.1

to 9.2.3 in that person's own name and for that person's own benefit, as if the words "its employees, agents and sub contractors" followed the word Company wherever it appears in those conditions save each reference in condition 9.2.3.1

6. The Buyer acknowledges that the above provisions of this Condition 9 are reasonable and reflected in the price which would be higher without those provisions, and the Buyer will accept such risk and/or insure accordingly.
7. Subject to condition 9.2.2 the Company's aggregate liability under the Contract whatsoever (whether in contract, tort (including negligence), breach of statutory duty, restitution or otherwise) and howsoever arising to the Buyer will be limited to the price of the goods.

10. FORCE MAJEURE

1. The Company shall not be liable in respect of any breach of contract due to any cause beyond its reasonable control including Act of God, inclement weather, flood, lightning or fire, industrial action or lockouts, actions of government departments, war, riot or terrorism, or the action of any party for whom the Company is not directly responsible.

11. SEVERABILITY

1. If any condition or part of the Contract is found by any court, tribunal, administrative body or authority of competent jurisdiction to be illegal, invalid or unenforceable then that provision will, to the extent required, be severed from the Contract and will be ineffective without, as far as is possible, modifying any other provision or part of the Contract and this will not affect any other provisions of the Contract which will remain in full force and effect.

12. ENTIRE AGREEMENT

1. The Contract contains all the terms which the Company and the Buyer have agreed in relation to the goods and supersedes any prior written or oral agreements, representations or understandings between the parties relating to such goods. The Buyer acknowledges that it has not relied on any statement, promise or representation made or given by or on behalf of the Company which is not set out in the Contract.

13. LAW AND JURISDICTION

1. The Contract shall be governed and construed in all respects in accordance with the Laws of England and shall be subject only to the jurisdiction of the English Courts.

Clarified warranty conditions

1. General

Installation – Equipment should be installed by a qualified person and located as per the instructions. Supplied services (Gas, Electricity and Water) should meet the specification supplied with the equipment and conform to current regulations. Gas pressure must meet the specification in the installation manual.

Maintenance – Users are required to regularly clean equipment and ensure servicing is carried out when required. Gas equipment should be serviced at least annually.

Modifications – any modification to the equipment will invalidate the warranty.

User damage – any damage to the equipment that affects its usage will invalidate the warranty. This includes use of incorrect cleaning agents.

2. Access

Service engineer visits are made between 8:30 a.m. and 5:00 p.m. on weekdays.

It is the customer's responsibility to ensure that the service engineer can access the equipment to effect repairs. Waiting time and abortive calls will be charged to the customer.

3. General exclusions

Gas

Gas products are supplied for either LPG or Natural Gas use and must be connected to the correct gas. All installations must conform to current gas regulations. Gas supplies must attain the minimum pressure levels as indicated in the instructions at all times. If a regulator is supplied with the unit then it must have been fitted correctly and set to the required pressure.

Electric (excluding equipment supplied with BS 1363 plugs)

All products must be connected to supplies with the correct voltage and phasing by a qualified electrician and comply with current regulations.

Water – all except filter flow

Any issue identified as a result of the water supply, e.g. water pressure or water hardness is not covered by the warranty. De-scaling is chargeable to the customer. Filter systems must be capable of maintaining correct levels of treated water, and users must ensure filters are changed regularly.

Specific general exclusions

- Damage to control knobs and buttons due to misuse.
- Discolouration of components due to heat.
- Resolving drainage problems where drainage does not meet requirements.
- Lubrication of moving parts.
- Corrosion caused by the use of chemical cleaners.
- Replacement of components due to internal contamination as a result of spillage or accumulation of grease/food debris due to a lack of cleaning.
- Cabinet, drawer and door seals are considered consumable items and will not be replaced under warranty.
- Light bulbs and lens covers are considered consumable items and will not be replaced under warranty.
- Enamel coated components if impacted sufficiently will crack or chip, such damage is not covered by the terms of this warranty.
- Rectification where non-Lincat specified parts have been used.

- Where user error is established, or no fault is found.
- Hinges when the damage has been caused by the user, and not a product defect.
- Replacement of hot plates when cracked due to external spillage, accumulation of grease, or food debris due to lack of cleaning.
- Door components are not covered by warranty when deemed misuse.

4. Additional exclusions by type

Gas general

- Poor combustion caused by lack of cleaning.
- Failure of components directly linked to poor cleaning and/or maintenance.
- Cleaning of burners jets.
- Cleaning/adjustment of pilots and thermocouples.
- Correction of gas pressure to the appliance.
- Lubrication of gas valves.
- Renewing of gas supply fittings external to the appliance.

Electrical general

- Resetting of safety devices including fuses where no other fault exists.
- Renewing of supply cable ends.
- Terminal blocks when the damage occurs at the supply end and is not a product defect.

Filter Flow

- Failure to replace the filter with a Lincat supplied item could result in invalidation of the units warranty and charges incurred. Purchase of the filter can be done at time of purchase when placing your order, and subsequent filters can be ordered from PartsTown UK using product code FC02 or FC04.
- Descaling of the unit.
- Damage to the elements resulting from mechanical descaling e.g. using a scraper.

Fryers

- Cleaning and un-blocking of fryer filter systems due to customer misuse.
- Replacement of components damaged by cooking oils due to a lack of cleaning and care when replacing oil.
- Damage to thermostats.

Induction

- Chipped or damaged glass not reported at time of delivery.
- Damage due to blocked or missing air filters.

Chargrills and salamanders with Ceramic burners

- Impact damage caused by the user.

Chargrill Radiant covers

- Radiant covers are considered consumable items and may corrode if not regularly cleaned due to prolonged contact with salt and fats and will not be replaced under warranty.
- Damage to heaters due to failure to replace radiant covers is not covered by the warranty.

Heated and chilled food displays

- Chipped or damaged glass not reported at time of delivery.
- Damage to components resulting from restricted airflow to inlets and outlet.
- Damage to components resulting from accumulation of airborne particles.
- Condensation on cold surfaces if units are installed in environments beyond specification.

Combi and Bake ovens

- Damage resulting from lack of water flow to the unit.
- Where damage has arisen due to lack of descaling, or incorrect/no cleaning products being used where manufacturers guidelines advise they should be.
- Glass in doors.

5. Replacement units additional conditions

Lincat may choose to replace a unit that requires repair.

Lincat reserve the right to send an engineer to attempt a repair before a replacement is offered.

If no fault is found Lincat reserves the right to charge for the replacement. Acceptance of delivery of a new unit is acceptance of this condition by the customer.

Any goods which have been replaced will belong to the Company. Any repaired or replacement goods will be covered for the unexpired portion of the original warranty.

The Lincat Edge

Here at Lincat we have values which run through our company and that are incredibly important to all of us. These values are reflected in the decisions that we make and guide everything that we do.

01. We're focused on you

Our passion is delivering what our customers want and need in order for them create fabulous food and to succeed.

05. We're never satisfied

We always strive to do things better. We know we're not perfect, but we work with the mantra of learning and improving every day. We don't take your business for granted.

02. We're driven by delivering quality

At Lincat our focus is on delivering only the best quality products. It's a mantra that goes into all of the work that we do at our state of the art manufacturing facility in our home town of Lincoln.

06. We're innovative

10% of our employees - from chefs to engineers - are focused on creating innovative equipment to make your life easier.

03. We're foodies at heart

Food is a passion for us. That's why we strive to provide the very best equipment for you to achieve excellent results and deliver delicious dishes time after time.

06. We find solutions

Whether you bake, grill, boil or fry on a small scale for a cafe, or cook on a huge scale at a hospital, we're confident that we can find a solution for you.

04. We're reliable

We're extremely confident in the quality and durability of our products. They won't let you down and neither will we.

08. We're agile

We're flexible and can move quickly to help you. If you need something, we will find a way to help.
